EXHIBIT A
(ELECTRICAL UTILITY TAX SHARING AGREEMENT FOR THE PROJECT HAMMER DEVELOPMENT)
ELECTRICAL UTILITY TAX SHARING AGREEMENT

This Intergovernmental Agreement is between the City of DeKalb ("City") and Project Hammer ("Developer") and is effective as of the date it is last executed by one of the parties.

RECITALS

A. The City of DeKalb (the "City") is a home rule municipality under the Constitution and statutes of the State of Illinois. Except to the extent limited by the General Assembly, a home rule municipality may exercise any power and perform any function pertaining to its government and affairs including, but not limited to, the power to regulate for the protection of the public health, safety, morals and welfare; to license; to tax; and to incur debt.

B. Project Hammer (the "Developer") proposes to redevelop the property legally described in Exhibit A (the "Subject Property"), as described in this Agreement.

C. The Subject Property is located within the City. The City has by ordinance enacted a utility tax on the privilege of using or consuming electricity purchased at retail and used or consumed within the corporate limits of the municipality on a monthly basis (the "Electricity Tax").

D. As required by Illinois statute (65 ILCS 5/8-11-2(c)), this Electricity Tax is collected by the Utility that produces or delivers the electricity to the purchaser of the electricity upon which the tax is imposed. The Utility collecting the Electricity Tax is by statute further allowed to reimburse itself for the expenses incurred in keeping records, billing customers, preparing and filing returns, remitting the tax and supplying data to the municipality upon request in an amount which is currently equal to 3% of the Electricity Tax.

E. The City, after due and careful consideration, has concluded that completion of the Developer's Redevelopment Project for the Subject Property will further the growth of the Subject Property and its surrounding area, increase the assessed valuation of real estate situated within the Subject Property; increase the economic activity within the City's boundaries; provide jobs and employment opportunities; and otherwise be in its best interests by positively impacting the health and welfare of its citizens and taxpayers.

F. The City, after due and careful consideration, finds that it is in its best interest to incentivize the redevelopment and improvement of the Subject Property with the Redevelopment Project by agreeing to rebate 50% of the Electricity Tax it actually receives from the Subject Property for a period of 15 years (180 months) as detailed in this Agreement.
NOW, THEREFORE, in consideration of the foregoing and of the mutual covenants and agreements herein contained and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties do hereby agree as follows:

ARTICLE I
RECITALS PART OF AGREEMENT

1.1 Incorporation of Recitals. The recitations set forth in the foregoing recitals are true, correct and material to this Agreement. The foregoing recitals are and are hereby incorporated into and made a part of this Agreement as though they were fully set forth in this Article I.

ARTICLE II
MUTUAL ASSISTANCE

2.1 Cooperation. The Parties agree to take such actions, including the execution and delivery of such documents, instruments, petitions and certifications (and, in the case of the City, the adoption of such ordinances and resolutions), as may be necessary or appropriate, from time to time, to carry out the terms, provisions and intent of this Agreement and to aid and assist each other in carrying out said terms, provisions and intent.

ARTICLE III
THE REDEVELOPMENT PROJECT

3.1 Redevelopment Project. The “Redevelopment Project” shall be defined as the Developer’s completion of the redevelopment of the Subject Property that is described below in substantial conformance with the concept plans attached in Exhibit B.

The Developer shall subdivide the Subject Property into 3 parcels, said parcels hereinafter referred to as “Building Parcel A”, “Building Parcel B”, and “Building Parcel C”. The Developer intends to redevelop the Subject Property in one or more phases, as follows (such phases referred to collectively or individually as a “Phase” or “Phases”):

Phase 1 – Building Parcel A: The Developer shall construct a distribution center containing approximately 1,000,000 square feet of enclosed building under roof, together with any other necessary or desired additional structures or improvements on the parcel Developer designates as Building Parcel A (the construction of such distribution center is hereinafter referred to as “Phase 1”).

Phase 2 – Building Parcel B: The Developer shall construct a packaging facility containing approximately 400,000 square feet of enclosed building under roof, together with any other necessary or desired additional structures or improvements on the parcel Developer designates as Building Parcel B (the construction of such packaging facility is hereinafter referred to as “Phase 2”).

Phase 3 – Building Parcel C: The Developer may elect, but shall not be required, to construct a manufacturing facility containing approximately 1,000,000 square feet of enclosed building under roof, together with any other necessary or
desired additional structures or improvements on the parcel Developer designates as Building Parcel C (the construction of such manufacturing center is hereinafter referred to as “Phase 3”).

The total cost for development of all phases of the Redevelopment Project is estimated to exceed $100 million.

**ARTICLE IV**

**DEVELOPER’S REQUIRED APPROVALS**

4.1 **Plan Approval.** The Developer shall (or cause its contractors to) submit complete permit applications to the City and to any other agencies having any jurisdiction over the construction of any portion of the Redevelopment Project with all required documentation including engineering, development and other required plans. The application for the permits and the construction of the Redevelopment Project may be done in phases. However, no work requiring a permit shall be commenced until the Developer or its contractors have obtained all requisite governmental permits and approvals for such work in accordance with City ordinances and codes as well as the requirements of any other governmental body or agency having any having jurisdiction over any aspect of the Redevelopment Project work.

**ARTICLE V**

**CONSTRUCTION OF THE REDEVELOPMENT PROJECT**

5.1 **Construction of Redevelopment Project.** The Developer shall commence construction of the Redevelopment Project promptly after issuance of the permits necessary for the work to be performed. Once construction of a Phase has commenced, the Developer agrees to cause construction of the Redevelopment Project to proceed in a timely manner and substantially in accordance with the objectives of the Redevelopment Project as it may be modified or revised from time to time. The Developer shall undertake or cause to be undertaken the Redevelopment Project in accordance with the Plans to be filed with, and approved by, the City, and any other appropriate governmental or regulatory agency having jurisdiction over the Redevelopment Project. The Developer shall expeditiously construct or cause to be constructed the Redevelopment Project in a good and workmanlike manner in accordance with all applicable federal, state and local laws, ordinances and regulations, including, but not limited to any applicable Illinois Prevailing Wage requirements. The Developer shall not cause or permit any material deviation from the approved engineering and construction plans and specifications without the prior consent of the City or any other governmental agency having jurisdiction over the relevant portion of the work. The Developer agrees to pay any and all costs and expenses necessary for the timely and lien free completion of the Redevelopment Project, even if said costs and expenses exceed the project budget or any amendments thereto. Nothing in this Agreement shall be construed or intended to be a waiver of any rights that any governmental agency having any jurisdiction over the portion of the Redevelopment Project may have to require code compliance and/or issue stop work orders or violation notices.

5.2 **Scheduling.** The beginning and substantial completion of the construction Phase 1 and Phase 2 of the Redevelopment Project shall comply with the following deadlines:

5.3 *Indemnification.*

(a) **Indemnification by Developer.** The Developer covenants and agrees to pay, at its expense, any and all claims, damages, demands, expenses, liabilities and losses resulting from the construction and development activities of the Developer, its agents, contractors and subcontractors with respect to the Redevelopment Project and to indemnify and save the City and its officers, agents, employees, engineers and attorneys (the “Indemnitees”) harmless from and against such claims, damages, demands, expenses, liabilities and losses. The Developer shall provide satisfactory proof of insurance covering such indemnity or, if Developer is self-insured, proof of adequate security for such indemnity.

(b) **Indemnification by City.** The City covenants and agrees to pay, at its expense, any and all claims, damages, demands, expenses, liabilities and losses arising out of the execution of this Agreement or the performance by the City of its obligations hereunder, including without limitation any breach of its representations and warranties herein and actions challenging the enforceability of the Agreement or the authority of the City to perform its obligations, and to defend, indemnify and save the Developer and its officers, agents, employees, tenants and attorneys (the “Indemnitees”) harmless of, from and against such claims, damages, demands, expenses, liabilities and losses.

5.4 **No Liens.** No mechanics’ or other liens shall be established against the Redevelopment Project, the Subject Property in connection with the Redevelopment Project for labor or materials furnished in connection with any acquisition, demolition, site preparation, construction, additions, modifications, improvements, repairs, renewals or replacements so made; provided, however, that the Developer shall not be in default hereunder if mechanics’ or other liens are filed or established and the Developer contests in good faith said mechanics’ liens. In such event the mechanics’ or other liens may remain undischarged and unsatisfied during the period of such contest and any appeal therefrom, Developer shall not be in violation of this Section if the Developer posts a bond or a letter of credit in an amount sufficient to cover any liens, and the Developer sends written notice to the City advising of the type and amount of the security posted for such liens. In no event, however, shall the Developer allow the foreclosure of any mechanics’ or other liens. The Developer shall pay in full any and all liens for which it is found liable.
5.5 **Conditions Precedent.** The City acknowledges and agrees that Developer’s obligations under this Agreement with respect to the acquisition of the Subject Property and the construction of the Redevelopment Project are expressly conditioned on the receipt of other incentives and assistance necessary for the Redevelopment Project, including without limitation the incentives and assistance set forth in that certain letter dated September 20, 2019 from the DeKalb County Economic Development Corporation regarding “Project Hammer Incentives.” In the event any such incentives or assistance are withheld or delayed for any Phase of the Redevelopment Project, the deadlines for such applicable Phase shall be automatically extended one day for each day of such delay.

In addition, the Developer’s obligations under this Agreement are conditioned on the term of the Zone being extended through at least December 31, 2041. Promptly following the effective date of this Agreement, the Taxing Agencies shall take all action necessary to cause the extension of the term of the Zone, including obtaining approvals required from other governmental bodies and agencies, including without limitation the Illinois Department of Commerce and Economic Opportunity, the Illinois State Enterprise Zone Board, and, as the case may be, the Illinois General Assembly.

**ARTICLE VI**

**ELECTRICITY TAX SHARING**

6.1 **Definitions.** For the purpose of this Agreement, the terms set forth below shall have the following Definitions:

a. “Person” means any natural individual, firm, trust, estate, partnership, association, joint stock company, joint adventure, corporation, limited liability company, or a receiver, trustee, guardian or other representative appointed by order of any court.

b. “Proof of Payment” means a copy of: (1) a monthly electric bill received from a Utility which itemizes the kilowatt hours of electricity used/consumed within the Subject Property and the Electricity Tax due; and (2) a copy of a subsequent electric bill received from a Utility showing full payment of both the previously received bill and Electricity Tax for which a rebate is sought from the City.

c. “Purchaser” means any Person who uses or consumes electricity acquired in a purchase at retail within the Subject Property.

d. “Utility” means and includes every corporation, company, limited liability company, association, joint stock company or association, firm, partnership or individual, their lessees, trustees, or receivers appointed by any court whatsoever that owns, controls, operates or manages, within this State, directly or indirectly, for public use, any plant, equipment or property used or to be used for or in connection with, or owns or controls any franchise, license, permit or right to engage in the production, storage, transmission, sale, delivery or furnishing of electricity for use within the Subject Property.
e. "Electricity Tax" means the amount of the tax due from the Purchaser(s) for the privilege of using or consuming electricity within the Subject Property pursuant to City Ordinance but does not include any amount the Utility charges, pursuant to Illinois Statute, to reimburse the Utility for the expenses incurred in keeping records, billing customers, preparing and filing returns, remitting the tax and supplying data to the municipalities upon request. (At present, pursuant to 65 ILCS 5/8-11-2(c), a Utility would be authorized to charge an amount equal to 3% of the Electricity Tax to reimburse the Utility for the expenses incurred in keeping records, billing customers, preparing and filing returns, remitting the tax and supplying data to the municipalities upon request.)

6.2 Rebate of Electricity Tax. Provided the Developer is in compliance with the terms of this Agreement, the City agrees to rebate/pay to the Developer an amount equal to 50% of the Electricity Tax paid by the Purchaser to the City pursuant the terms and conditions of this Agreement. A 180-month rebate period shall be separately applicable to each of the 3 Parcels that make up the Subject Property, namely, Building Parcel A; Building Parcel B; and Building Parcel C. The applicable of the rebate may commence in different months for Building Parcel A, Building Parcel B, and Building Parcel C. Subject to the maximum deadlines set forth below, the City’s rebate of Electricity Tax for electricity used and consumed within the Subject Property shall begin with the first electric bill received by any Purchaser after the first day of the month following the month in which the first occupancy permit is issued by the City for the applicable Parcel and shall thereafter continue for each of the following 179 consecutive months with respect to the applicable Parcel. Prior to, and as a condition to, receiving an Electricity Tax rebate from the City, the Developer shall, on a monthly basis, provide the City with a copy of each and every electric bill it has received for the applicable Parcel and proof of the payment of same. Within 30 days after the City’s receipt of the required documentation from the Developer, the City shall forward payment to the Developer in an amount equal to 50% of the Electricity Tax paid to the City by the Purchaser for the month.

Notwithstanding the foregoing paragraph, the first year during which the rebate shall commence for each of the 3 Parcels making up the Subject Property shall occur no later than the years set forth below:

6.3 Audit. The Developer shall cooperate with any audit that may from time to time be requested/conducted by the City in order to verify that that the Electricity Tax paid to the City for
the use and consumption of electricity within the Subject Property is properly allocated to and/or paid to the City by the Utility.

6.4 Electric Meters. Upon the request of the City, the Developer shall provide the City with a list of all electric meters serving the Subject Property. No electric meter shall serve any area, property or building which is not located within the Subject Property.

6.5 Developer Obligations. Notwithstanding any other provision of this Agreement, the City’s rebate/payment of Electricity Tax to the Developer shall be contingent upon the Developer’s compliance, at all times with each and every one of the following requirements:

A. Payment of Taxes. The payment of all real estate tax bills for all portions of the Subject Property promptly on or before the due date of such tax bills.

B. Payment of Electric Bills. The full payment of all electric bills and Electricity Taxes due for the electricity used/consumed within the Subject Property.

C. Completion of Improvements. The timely substantial completion of all improvements required to be constructed on the applicable portions of the Subject Property in accordance with the terms of this Agreement, the concept plans attached as Exhibit A and the approved plans and specifications by each governmental agency having any jurisdiction over any portion of the work. The Developer may apply for an extension of the deadline to complete any portion of the work, which shall not be unreasonably denied to the extent it is caused by one or more of the following: (1) a delay in the issuance of any required permit from any governmental agency having jurisdiction over any portion of the work, but only to the extent such delay exceeds 30 calendar days; (2) adverse weather conditions that preclude or prevent the performance of work; (3) strikes; (4) the unavailability of key building components that is not the fault of the Developer; (5) Acts of God; (6) damage or causality to work that has already been completed; (7) war or national emergency; or (8) any other occurrence that precludes the completion of the work that is unrelated to any action or inaction of the Developer and over which the Developer has no control.

D. Agreement. The Developer’s compliance with all the terms of this Agreement.

ARTICLE VII

7.3 Amendment. This Agreement, and any exhibits attached hereto, may be amended only by the mutual agreement of the Parties evidenced by a written amendment, by the adoption of an ordinance, resolution or motion of the governmental entities approving such written amendment, as provided by law, and by the execution of such written amendment by the Parties or their successors in interest.

7.5 Severability. If any provision, covenant, agreement or portion of this Agreement, or its application to any person, entity or property, is held invalid, such invalidity shall not affect the application or validity of any other provisions, covenants, agreements or portions of this Agreement and, to that end, all provisions, covenants, agreements or portions of this Agreement are declared to be severable.

7.6 Illinois Law. This Agreement shall be governed by, and construed its accordance with, the laws of the State of Illinois.
