### CONTRACTOR CERTIFICATIONS

The certifications hereinafter made by the bidder are each a material representation of fact upon which reliance is placed should the Department enter into the contract with the bidder.

- Debt Delinquency.** The bidder or contractor or subcontractor, respectively, certifies that it is not delinquent in the payment of any tax administered by the Department of Revenue unless the individual or other entity is contesting, in accordance with the procedure established by the appropriate Revenue Act, its liability for the tax or the amount of the tax. Making a false statement voids the contract and allows the Department to recover all amounts paid to the individual or entity under the contract in a civil action.
- Bid-Rigging or Bid Rotating.** The bidder or contractor or subcontractor, respectively, certifies that it is not barred from contracting with the Department by reason of a violation of either 720 ILCS 5/33E-3 or 720 ILCS 5/33E-4.

A violation of section 33E-3 would be represented by a conviction of the crime of bid-rigging which, in addition to Class 3 felony sentencing, provides that any person convicted of this offense, or any similar offense of any state or the United States which contains the same elements as this offense shall be barred for 5 years from the date of conviction from contracting with any unit of State or local government. No corporation shall be barred from contracting with any unit of State or local government as a result of a conviction under this Section of any employee or agent of such corporation if the employee so convicted is no longer employed by the corporation: (1) it has been finally adjudicated not guilty or (2) if it demonstrates to the governmental entity with which it seeks to contract that entity finds that the commission of the offense was neither authorized, requested, commanded, nor performed by a director, officer or a high managerial agent on behalf of the corporation.

A violation of Section 33E-4 would be represented by a conviction of the crime of bid-rotating which, in addition to Class 2 felony sentencing, provides that any person convicted of this offense or any similar offense of any state or the United States which contains the same elements as this offense shall be permanently barred from contracting with any unit of State or Local government. No corporation shall be barred from contracting with any unit of State or Local government as a result of a conviction under this Section of any employee or agent of such corporation if the employee so convicted is no longer employed by the corporation and: (1) it has been finally adjudicated not guilty or (2) if it demonstrates to the governmental entity with which it seeks to contract and that entity finds that the commission of the offense was neither authorized, requested, commanded, nor performed by a director, officer or a high managerial agent on behalf of the corporation.

- Bribery.** The bidder or contractor or subcontractor, respectively, certifies that, it has not been convicted of bribery or attempting to bribe an officer or employee of the State of Illinois or any unit of local government, nor has the firm made an admission of guilt of such conduct which is a matter of record, nor has an official, agent, or employee of the firm committed bribery or attempted bribery on behalf of the firm and pursuant to the direction or authorization of a responsible official of the firm.
- Interim Suspension or Suspension.** The bidder or contractor or subcontractor, respectively, certifies that it is not currently under a suspension as defined in Subpart I of Title 44 Subtitle A Chapter III Part 6 of the Illinois Administrative code. Furthermore, if suspended prior to completion of this work, the contract or contracts executed for the completion of this work may be canceled.

## DESIGNATED CONSTRUCTION PROJECT(S) GENERAL AGGREGATE LIMIT

This endorsement modifies insurance provided under the following:

COMMERCIAL GENERAL LIABILITY COVERAGE PART

### SCHEDULE

**Designated Construction Project(s):**

Applies to all construction projects of the insured unless otherwise excluded

Information required to complete this Schedule, if not shown above, will be shown in the Declarations.

A. For all sums which the insured becomes legally obligated to pay as damages caused by "occurrences" under Section I – Coverage A, and for all medical expenses caused by accidents under Section I – Coverage C, which can be attributed only to ongoing operations at a single designated construction project shown in the Schedule above:

1. A separate Designated Construction Project General Aggregate Limit applies to each designated construction project, and that limit is equal to the amount of the General Aggregate Limit shown in the Declarations.
2. The Designated Construction Project General Aggregate Limit is the most we will pay for the sum of all damages under Coverage A, except damages because of "bodily injury" or "property damage" included in the "products-completed operations hazard", and for medical expenses under Coverage C regardless of the number of:
  - a. Insureds;
  - b. Claims made or "suits" brought; or
  - c. Persons or organizations making claims or bringing "suits".

3. Any payments made under Coverage A for damages or under Coverage C for medical expenses shall reduce the Designated Construction Project General Aggregate Limit for that designated construction project. Such payments shall not reduce the General Aggregate Limit shown in the Declarations nor shall they reduce any other Designated Construction Project General Aggregate Limit for any other designated construction project shown in the Schedule above.

4. The limits shown in the Declarations for Each Occurrence, Damage To Premises Rented To You and Medical Expense continue to apply. However, instead of being subject to the General Aggregate Limit shown in the Declarations, such limits will be subject to the applicable Designated Construction Project General Aggregate Limit.

- B. For all sums which the insured becomes legally obligated to pay as damages caused by "occurrences" under Section I – Coverage A, and for all medical expenses caused by accidents under Section I – Coverage C, which cannot be attributed only to ongoing operations at a single designated construction project shown in the Schedule above:
1. Any payments made under Coverage A for damages or under Coverage C for medical expenses shall reduce the amount available under the General Aggregate Limit or the Products-completed Operations Aggregate Limit, whichever is applicable; and
  2. Such payments shall not reduce any Designated Construction Project General Aggregate Limit.
- C. When coverage for liability arising out of the "products-completed operations hazard" is provided, any payments for damages because of "bodily injury" or "property damage" included in the "products-completed operations hazard" will reduce the Products-completed Operations Aggregate Limit, and not reduce the General Aggregate Limit nor the Designated Construction Project General Aggregate Limit.
- D. If the applicable designated construction project has been abandoned, delayed, or abandoned and then restarted, or if the authorized contracting parties deviate from plans, blueprints, designs, specifications or timetables, the project will still be deemed to be the same construction project.
- E. The provisions of Section III – Limits Of Insurance not otherwise modified by this endorsement shall continue to apply as stipulated.

## CONTRACTUAL LIABILITY – RAILROADS

COMMERCIAL GENERAL LIABILITY COVERAGE PART

### SCHEDULE

Scheduled Railroad:	Designated Job Site:
Railroads where required by written contract	Locations where required by written contract

(If no entry appears above, information required to complete this endorsement will be shown in the Declarations as applicable to this endorsement.)

With respect to operations performed for, or affecting, a Scheduled Railroad at a Designated Job Site, the definition of "insured contract" in the Definitions section is replaced by the following:

**9. "Insured Contract" means:**

- a. A contract for a lease of premises. However, that portion of the contract for a lease of premises that indemnifies any person or organization for damage by fire to premises while rented to you or temporarily occupied by you with permission of the owner is not an "insured contract";
- b. A sidetrack agreement;
- c. Any easement or license agreement;
- d. An obligation, as required by ordinance, to indemnify a municipality, except in connection with work for a municipality;
- e. An elevator maintenance agreement;
- f. That part of any other contract or agreement pertaining to your business (including an indemnification of a municipality in connection with work performed for a municipality) under which you assume the tort liability of another party to pay for "bodily injury" or "property damage" to a third person or organization. Tort liability means a liability that would be imposed by law in the absence of any contract or agreement.

Paragraph 1. does not include that part of any contract or agreement:

- (1) That indemnifies an architect, engineer or surveyor for injury or damage arising out of:
  - (a) Preparing, approving or failing to prepare or approve maps, shop drawings, opinions, reports, surveys, field orders, change orders or drawings and specifications; or
  - (b) Giving directions or instructions, or failing to give them, if that is the primary cause of the injury or damage;
- (2) Under which the insured, if an architect, engineer or surveyor, assumes liability for an injury or damage arising out of the insured's rendering or failure to render professional services, including those listed in Paragraph (1) above and supervisory, inspection, architectural or engineering activities.

**ADDITIONAL INSURED ONGOING OPERATIONS, OTHER INSURANCE, AND DUTY  
TO DEFEND AMENDMENT – SCHEDULED RAILROAD**

This endorsement modifies insurance provided under the following:

COMMERCIAL GENERAL LIABILITY COVERAGE PART

**SCHEDULE**

<b>Scheduled Railroad:</b>	<b>Designated Job Site:</b>
ALL RAILROADS WHERE REQUIRED BY A WRITTEN CONTRACT EXCEPT RAILROADS INCLUDED UNDER A SEPARATE ADDITIONAL INSURED ENDORSEMENT ISSUED TO A SPECIFIC ENTITY.	ANY LOCATION AS PER WRITTEN CONTRACT

**A. Section II – Who Is An Insured** is amended to include as an additional insured the Scheduled Railroad shown in the Schedule above, but only with respect to liability for "bodily injury", "property damage" or "personal and advertising injury" caused, in whole or in part, by:

1. Your acts or omissions; or
2. The acts or omissions of those acting on your behalf;

in the performance of your ongoing operations for the additional insured(s) at the Designated Job Site shown in the Schedule above.

However:

1. The insurance afforded to such additional insured only applies to the extent permitted by law; and
2. If coverage provided to the additional insured is required by a contract or agreement, the insurance afforded to such additional insured will not be broader than that which you are required by the contract or agreement to provide for such additional insured.

**B. With respect to the insurance afforded to this additional insured, the following additional exclusions apply:**

1. This insurance does not apply to "bodily injury" or "property damage" occurring after:
  - a. All work, including materials, parts or equipment furnished in connection with such work, on the project (other than service, maintenance or repairs) to be performed by or on behalf of the additional insured(s) at the location of the covered operations has been completed; or
  - b. That portion of "your work" out of which the injury or damage arises has been put to its intended use by any person or organization other than another contractor or subcontractor engaged in performing operations for a principal as a part of the same project.

**C. With respect to the insurance afforded to this additional insured, the following is added to Section III – Limits Of Insurance:**

If coverage provided to the additional insured is required by a contract or agreement, the most we will pay on behalf of the additional insured is the amount of insurance:

1. Required by the contract or agreement; or
  2. Available under the applicable Limits of Insurance shown in the Declarations;
- whichever is less.

This endorsement shall not increase the applicable Limits of Insurance shown in the Declarations.

- D. This insurance does not apply to "bodily injury", "property damage" or "personal and advertising injury" arising out of the rendering of or failure to render any professional services by you or any engineer, architect, or surveyor who is either employed by you or performing work on your behalf in such capacity.

Professional services include:

- a. The preparing, approving or failing to prepare or approve maps, shop drawings, opinions, reports, surveys, field orders, change orders or drawings and specifications; and
- b. Supervisory, inspection, architectural or engineering activities.

This exclusion applies even if the claims against any insured allege negligence or other wrongdoing in the supervision, hiring, employment, training or monitoring of others by that insured. If the "occurrence" which caused the "bodily injury" or "property damage" or the offense which caused the "personal and advertising injury", involved the rendering of or failure to render any professional services by you or any engineer, architect or surveyor who is either employed by you or performing work on your behalf in such capacity.

- E. With respect to insurance afforded to this additional insured, the following is added to b. (1) (a) of Paragraph 4. **Other Insurance of Section IV – Commercial General Liability Conditions:**

This insurance is excess over any other insurance, whether primary, excess, contingent or on any other basis that is available to the additional insured shown in the Schedule above. However,

1. This insurance is primary to and will not seek contribution from any other insurance available to an additional insured, other than a Railroad Protective Liability policy, under your policy provided that:
  - (a) The additional insured is a Named Insured under such other insurance; and
  - (b) You have agreed in writing in a contract or agreement prior to the "occurrence" or "offense" that this insurance would be primary and would not seek contribution from any other insurance available to the additional insured; or
2. If the other insurance is a Railroad Protective Liability policy, this insurance is excess unless there is a written denial of coverage issued under that Railroad Protective Liability Policy.

**SCHEDULE**

<b>Scheduled Railroad:</b>	<b>Designated Job Site:</b>
ALL RAILROADS WHERE REQUIRED BY A WRITTEN CONTRACT EXCEPT RAILROADS INCLUDED UNDER A SEPARATE ADDITIONAL INSURED ENDORSEMENT ISSUED TO A SPECIFIC ENTITY.	ANY LOCATION PER WRITTEN CONTRACT.

- A. Section II – Who Is An Insured** is amended to include as an additional insured Scheduled Railroad shown in the Schedule above, but only with respect to liability for "bodily injury" or "property damage" caused, in whole or in part, by "your work" at the Designated Job Site described in the Schedule above performed for that additional insured and included in the "products-completed operations hazard".

However:

1. The insurance afforded to such additional insured only applies to the extent permitted by law; and

This endorsement shall not increase the applicable Limits of Insurance shown in the Declarations.

- C. This exclusion applies even if the claims against any insured allege negligence or other wrongdoing in the supervision, hiring, employment, training or monitoring of others by that insured. If the "occurrence" which caused the "bodily injury" or "property damage" or the offense which caused the "personal and advertising injury", involved the rendering of or failure to render any professional services by you or any engineer, architect or surveyor who is either employed by you or performing work on your behalf in such capacity.

**D. With respect to insurance afforded to this additional insured, the following is added to b. (1) (a) of Paragraph 4. Other Insurance of Section IV – Commercial General Liability Conditions:**

This insurance is excess over any other insurance, whether primary, excess, contingent or on any other basis that is available to the additional insured shown in the Schedule above. However,

1. This insurance is primary to and will not seek contribution from any other insurance available to an additional insured, other than a Railroad Protective Liability policy, under your policy provided that:
  - (a) The additional insured is a Named Insured under such other insurance; and
  - (b) You have agreed in writing in a contract or agreement prior to the "occurrence" or "offense" that this insurance would be primary and would not seek contribution from any other insurance available to the additional insured; or
2. If the other insurance is a Railroad Protective Liability policy, this insurance is excess unless there is a written denial of coverage issued under that Railroad Protective Liability Policy.

**E. With respect to insurance afforded to this additional insured, the following is added to Paragraph 2. Duties In the Event of Occurrence, Offense, Claim or Suit of Section IV – Commercial General Liability Conditions:**

Any additional insured shown in the Schedule above will:

### 1.2 Contract Documents:

Any drawings, plans, standard conditions, special conditions, supplemental additional conditions, specifications, bid notice, bid sheet, and addendum, if any, as specified herein shall form the "Contract Documents." For the purpose of this bid, the word "City" shall refer to the City of DeKalb, and the word "Bidder" or "Contractor" shall refer to any person, company, or entity submitting a bid. This step is necessary to establish a communication link between the City and the Bidder so that any addenda or other relevant information may be transmitted properly. The Bidder, not the City, is responsible for obtaining any addenda to the original specification when the Bidder chooses the option of downloading bid or proposal files. Addenda and other relevant information will be posted on the City of DeKalb web page. Bidders must provide an email address which can be used by the City to send bid addenda or other official communications. All Bidders must sign off and acknowledge receipt of all bid addenda. Bids shall be submitted in sealed envelopes carrying the following information: Bidder's name, address, subject matter and document number of bid as indicated in the specification, and designated date and time of the bid opening. **All bids must be clearly marked at the top of each side of the envelope: "Official Bid: Do Not Open."** Bids will only be accepted by delivery or US mail; bids will not be accepted by facsimile, e-mail, internet, telephone or telegraphic means. All times are based upon the official time in the City of DeKalb, Central Standard Time or Central Standard Daylight Time (whichever applies at the time of bid).

##### 1.5.1 Pre-bid Meeting: Not Applicable

#### 1.6 Withdrawal of Bid:

Bidders may withdraw or cancel their bid, in written form, at any time prior to the advertised bid opening time. Bidders must submit a written request to withdraw their bid, which must be received by the City, at the stated location for bid submission, *prior to bid opening*.

#### 1.7 Bidder's Qualifications:

No award will be made to any Bidder who cannot satisfy to the City that they have sufficient ability and experience in this class of work, as well as sufficient capital and equipment to do the job and

complete the work successfully within the time named (i.e. responsible). The City's decision or judgment on these matters shall be final, conclusive, and binding. The City may make such investigations as it deems necessary. The Bidder shall furnish to the City, under oath if so required, all information and data the City may request for the purpose of investigation.

#### 1.8 Preparation of Bid:

The Bidder's submittal shall include the completed *Bid Sheet* and *Detailed Bid Sheet* found in the Contract Documents. The City will strictly hold the Bidder to the terms of the bid. The bid must be executed by a person having the legal right and authority to bind the Bidder.

#### 1.9 Compliance with Laws:

The Bidder shall at all times observe and conform to all laws, ordinances, and regulations of the Federal, State, and local governments, which may in any manner affect the preparation of bids or the performance of the contract. In addition, the Bid shall be subject to all applicable City of DeKalb purchasing policies and ordinances.

#### 1.10 Alternate to Bids:

Any reference in these specifications to manufacturer's name, trade name, or catalog number (unless otherwise specified) is intended as a standard only. The City's written decision of approval or disapproval of a proposed substitution shall be final. Alternate bids will be considered only if received at the time stated for receipt of the bids. Submit alternate bids in a sealed envelope and identify the envelope as required for all bids, except that the phrase **Alternate Bid** shall be used. Bidders are cautioned that, if an alternate bid(s) involves an increase in the *Bid Sum*, the *Bid Deposit*, **if required**, shall be ample or be increased to cover the alternate Bid Sum or the entire bid may be rejected. Alternate bids should only be submitted if the proposal is believed in good faith to be equal in quality to the requirements specified by the City. The City reserves the right to rule upon a specification deviation or alternate bid in the manner as best befits the City, and to accept an alternate bid deemed adequate without rebidding or waiver of bid.

#### 1.11 Form of Contract:

The form of contract between the City and the successful Bidder will be in the form attached hereto as Exhibit I.

#### 1.12 Freedom of Information Act (FOIA):

The City is required by Public Act 96-542 to comply with freedom of information requests (FOIA) within five (5) business days of a record request. All contractors used by the City may be in possession of records covered by this act and therefore will be required to provide the City with those records upon request and within the time frame of the Act.

#### 1.13 Bid Review:

The City reserves the right to reject any or all bids, to waive any irregularities or disregard any informality in the bids and bidding, and/or to waive competitive bidding and negotiate with one or more bidders or non-bidders directly when, in its opinion, the best interest of the City will be served by such action. Furthermore, the City reserves the right to award each item to a different Bidder, or all items to a single Bidder unless otherwise noted on the *Bid Sheet*. The City may determine as follows: 1) an equal or alternative is a satisfactory substitute; 2) an early delivery date is entitled to more consideration than price; 3) an early delivery date is to be disregarded because

of the reputation of the Bidder for not meeting delivery dates; 4) a Bidder is not a responsible Bidder; and

5) what exceptions or deviations from written specifications will be accepted.

No bid will be accepted from or contract awarded to any person, firm, or corporation that is in arrears or is in default to the City upon any debt or contract, or that is a defaulter, as surety or otherwise, upon any obligation to the City, or had failed to perform faithfully any previous contract with the City.

Bidders are required, if requested to do so, to effect a demonstration of the item/service being bid if the City feels it has insufficient knowledge of the item/service operations or performance capability. Such demonstration shall be at a site which is most convenient and agreeable to the affected City personnel. If the bid specifications require the submission of samples, such samples shall be submitted to the City at no cost, at or prior to the deadline for submitting bids. All samples become the property of the City upon submission.

#### 1.14 Bid Results:

Following the bid opening and review period, pending contract awards will be posted on the City's Internet website under the **Bids** web page. Bid tabulations posted on-line represent "as read" submittals at time of the bid opening. They do not represent contract award.

##### 1.14.1 Bid Protest:

Firms wishing to protest bids or awards should notify the City Representative in writing within three (3) days after the bid opening. This notification should include the bid number, the name of the firm protesting, and a detailed description as to why the firm is protesting the bid. The City Representative shall respond to said protest within seven (7) calendar days. A successful protest may result in the reversal of a previously awarded bid. If the firm wishes to appeal the determination of the City Representative, it may provide a written notice to the City Manager within two (2) business days of the date of release of the City Representative's decision; the City Manager shall thereafter review and decide the protest, and the decision of the City Manager shall be final.

#### 1.15 Delivery:

Where the bid involves the sale or delivery of materials or goods, all materials shipped to the City must be shipped F.O.B. delivered to the designated location specified in the Description of Work, DeKalb, Illinois. If special delivery terms are required (e.g. forklift, ramp, etc.), the Bidder is responsible for providing the same unless otherwise noted. The City accepts no responsibility for the condition of any merchandise purchased prior to acceptance by City personnel. The City reserves the right to refuse acceptance of delivered merchandise that differs from the specifications in the invitation to bid or as otherwise permitted by Illinois law.

#### 1.16 Inspections:

The City shall have the right to inspect any materials, components, equipment, supplies, services, or completed work specified herein. Any of said items not complying with these specifications are subject to rejection at the option of the City. Any items rejected shall be removed from the premises of the City and/or replaced at the entire expense of the successful Bidder.

### 1.17 Pricing:

For bids involving the sale of materials or supplies, unit prices shall be shown for each unit on which there is a bid and shall be inclusive of all charges necessary to comply with the terms and conditions of this bid (i.e. FOB DeKalb at the specified location). All prices shall be stated in U.S. dollars. Unit prices shall not include any local, state or federal taxes. In the case of a mistake in the extension of price, unit prices shall govern. All prices must be typewritten or written in ink; no erasures are permitted. Mistakes must be crossed out and corrections typewritten or written in ink adjacent thereto and initialed in ink by the party signing the bid.

#### 1.17.1 Format of Pricing Submission:

Bidders are requested to submit individual pricing for each Schedule of Prices Item for all work contemplated by these bid specifications. The City reserves the right to award all or some part of this work to individual bidders (e.g. the City may select different contractors to perform each Project Task) or may select a single bidder to perform all Project Tasks. The City also reserves the right to waive competitive bidding and award a contract for the performance of all or some portion of the project. The City also reserves the right to only complete certain portions of the project. Submission of a bid constitutes acceptance of these specifications.

Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than 1 1/2 times the basic rate of pay for all hours worked in excess of forty (40) hours in the work week. Section 107 of the Act is applicable to construction work and provides that no laborer or mechanic shall be required to work in surroundings or under working conditions which are unsanitary, hazardous, or dangerous to his health and safety as determined under construction, safety, and health standards promulgated by the Secretary of Labor. In case the contractor fails or neglects to take such precautions, the owner may have such lights and barricades installed and charge the cost of this work to the contractor. Such action by the owner does not relieve the contractor of any liability incurred under these specifications or contract.

#### 2.15      Bonding Requirements:

The minimum bond requirements shall be as follows:

A bid guarantee from each bidder equivalent to five percent of the bid price. The "bid guarantee" shall consist of a firm commitment such as bid bond, certified check, or other negotiable instrument accompanying a bid as assurance that the bidder will, upon acceptance of his bid, execute such contractual documents as may be required within the time specified.

These goals are applicable to all of the contractor's construction work (whether or not it is federally assisted) performed in the covered area.

The contractor's compliance with the Executive Order and the regulations in 41 CFR Part 60-4 shall be based on its implementation of the Equal Opportunity Clause, specific affirmative action obligations required by the specifications set forth in 41 CFR 60-4.3(a), and its efforts to meet the goals established for the geographical area where the contract resulting from this solicitation is to be performed. The hours of minority and female employment and training must be substantially uniform throughout the length of the contract, and in each trade, and the contractor shall make a good faith effort to employ minorities and women evenly on each of its projects. The transfer of minority or female employees or trainees from contractor to contractor or from project to project for the sole purpose of meeting the contractor's goals shall be a violation of the contract, the executive Order and the regulations in 41 CFR Part 60-4. Compliance with the goals will be measured against the total work hours performed.

and timetables) shall be in accordance with that Plan for those trades which have unions participating in the Plan. Contractors must be able to demonstrate their participation in and compliance with the provisions of any such Hometown Plan. Each contractor or subcontractor participating in an approved Plan is individually required to comply with its obligations under the EEO clause and to make a good faith effort to achieve each goal under the Plan in each trade in which it has employees. The overall good faith performance by other contractors or subcontractors toward a goal in an approved Hometown Plan does not excuse any covered contractor's or subcontractor's failure to make good faith efforts to achieve the Hometown Plan goals and timetables.

#### 2.18.4 Special Affirmative Action Standards in Paragraphs 2.18.07.01 through 2.18.07.16:

In order for the non-working training hours of apprentices and trainees to be counted in meeting the goals, such apprentices and trainees must be employed by the contractor during the training period, and the contractor must have made a commitment to employ the apprentices and trainees at the completion of their training, subject to the availability of employment opportunities. Trainees must be trained pursuant to training programs approved by the U.S. Department of Labor.

#### 2.18.7 Specific Affirmative Action:

**2.18.74 Provide Immediate Written Notification to Director:**

The contractor shall provide notice of these programs to the sources compiled under Paragraph 7.b. above.

Disseminate the contractor's EEO policy by providing notice of the policy to unions and training programs and requesting their cooperation in assisting the contractor in meeting its EEO obligations; by including it in any policy manual and

collective bargaining agreement; by publicizing it in the company newspaper, annual report, etc.; by specific review of the policy with all management personnel and with all minority and female employees at least once a year; and by posting the company EEO policy on bulletin boards accessible to all employees at each location where construction work is performed.

#### 2.18.7.7 Review Annually Company's EEO Policy:

Review, at least annually, the company's EEO policy and affirmative action obligations under these specifications with all employees having any responsibility for hiring, assignment, layoff, termination or other employment decisions including specific review of these items with on-site supervisory personnel such as superintendents, general foreman, etc., prior to the initiation of construction work at any job site. Not later than one month prior to the date for the acceptance of applications for apprenticeship or other training by any recruitment source, the contractor shall send written notification to organizations such as the above describing the openings, screen procedures, and tests to be used in the selection process.

#### 2.18.7.10 Encourage Present Minority & Female Employees to Recruit Others:

Encourage present minority and female employees to recruit other minority persons and women and, where reasonable, provide after school, summer, and vacation employment to minority and female youth both on the site and in other areas of a contractor's work force.

#### 2.18.8 Voluntary Associations

Contractors are encouraged to participate in voluntary associations which assist in fulfilling one or more of their affirmative action obligations (7.a. through 7.p.). The efforts of a contractor association, joint contractor-union, contractor-community, or other similar group of which the contractor is a member and participant, may be asserted as fulfilling any of these specifications provided that the contractor actively participates in the group, makes every effort to assure that the group has a positive impact on the employment of minorities and women in the industry, ensures that the concrete benefits of the program are reflected in the contractor's minority and female work force participation, makes a good faith effort to meet its individual goals and timetables, and can provide access to documentation which demonstrates the effectiveness of actions taken on behalf of the contractor. The obligation shall not be a defense for the contractor's noncompliance.

#### 2.18.9 Goal for Minorities & Goal for Women:

A single goal for minorities and a separate single goal for women have been established. The contractor, however, is required to provide equal employment opportunity and to take affirmative action for all minority groups, both male and female, and all women, both minority and non- minority. Consequently, the contractor may be in violation of the executive order if a particular group is employed in a substantially disparate manner (for example, even though the contractor has achieved its goals for women generally, the contractor may be in violation of the Executive Order if a specific minority group of women is under-utilized).

Any provision of these specifications requiring the Contractor to defend the City shall be read to include the City having choice of legal counsel, at Contractor's expense, for purposes of fulfilling the defense obligation. Any language in these Contract Documents regarding the Contractor's obligation to indemnify the City or to insure the City shall be read jointly, such that a waiver of subrogation or waiver of defense appearing in the Indemnification provisions shall also apply to the Insurance provisions. All such insurance or indemnification provisions shall also be read to require indemnification and insurance to be provided for the benefit of the City and City Indemnitees (as indemnified parties and as additional insureds).

**Prior to receipt of a purchase order and start of work, the City Finance Department must receive and approve Certificates of Insurance, W-9 form, and endorsements for all Contractors' employees who will be using their personal vehicle for transportation for work-related purposes during the workday. It will be the responsibility of the Contractor to provide renewal certificates**

for the same, and any new employees added to the City contract throughout the course of the contract. These forms can be sent to City of DeKalb Finance Department, Attn. Accounts Payable/Purchasing Agent, 164 East Lincoln Highway, DeKalb, Illinois, 60115.

#### 4.8.1 Insurance Rating:

All insurance policies required by this contract shall be underwritten by insurance companies with a minimum A.M. Best rating of B++ or better. In the event that the Contractor or any Subcontractor fails to procure or maintain any insurance required by the Contract Documents, the City may, at its option, purchase such coverage and deduct the cost thereof from any monies due to the Contractor or Subcontractor, or withhold funds in an amount sufficient to protect the City, or terminate this Agreement pursuant to its terms.

#### 4.8.2 Special Requirement:

If the Bidder is an architectural firm or engineering firm, or if the Work under the Contract Documents includes design, consultation, or any other professional services, said Bidder shall file a certificate of insurance for professional liability, errors, and omissions coverage subject to final acceptance by the City of said coverage. Professional liability insurance is not required to name the City as additional primary insured. Such insurance shall be provided on an occurrence basis, or if provided on a claims-made basis, shall have a retroactive date prior to the start of Work.

#### 4.8.3 Provision of Insurance:

The Bidder shall not commence Work under this contract until the Bidder has obtained all insurance required under this section and such insurance has been approved by the City, nor shall Bidder allow any subcontractor to commence work on their subcontract until the same insurance has been obtained by the subcontractor. The Bidder and their subcontractor(s) shall maintain all insurance required under these Contract Documents for not less than two (2) years after completion of this contract. The City shall not be obligated to review such certificates or other evidence of insurance, or to advise Contractor or Subcontractor of any deficiencies in such documents, and receipt thereof shall not relieve the Contractor or Subcontractor from, nor be deemed a waiver of the right to enforce, the terms of the obligations hereunder. The City shall have the right to examine any policy required and evidenced on the Certificate of Insurance. Additionally, and supplemental to the indemnification outlined above, the successful Bidder shall indemnify, defend and hold harmless the City from any and all claims arising out of the payment or real or alleged failure to pay any subcontractor or materialman.

#### 4.9 Subcontractors:

Use of any subcontractors for performance of any component of this Agreement requires the City's express written pre-approval prior to undertaking any services as contemplated in the terms of these specifications. Additionally, without regard to such pre-approval, any contractor,

subcontractor, or materialman providing services or materials relating to these specifications shall expressly be required to comply with all of the terms of these specifications. The prime contractor or successful Bidder holding the agreement resulting from these specifications shall be responsible for so confirming and shall indemnify, defend, and hold the City harmless from any failure to comply with these specifications by any subcontractor. Moreover, the failure to perform or default of any subcontractor shall be held and applied against the prime contractor under which the subcontractor is working as if the prime contractor itself had failed to perform or had defaulted.

#### 4.10 Change Orders:

After the contract award, changes in or additions to the work and/or a change in the amount of money to be paid to the Bidder must be the result of an approved change order first ordered by the City Representative. For any contract which is subject to the Public Works Contract Change Order Act, 50 ILCS 525/1, et. seq., the City requires the successful contractor verify any change order request received from a subcontractor will not exceed 49% of the original subcontract amount. Any needed change order that will increase the subcontract by 50% or more will require opening up that portion of the work to competitive bidding. The contract price is and must include a "not to exceed" price. Any time the Contractor believes additional work is necessary or requested and the not to exceed price would increase, any change or addition shall require the pre-approval of the City. Unless a change order is approved in writing by the City Representative and/or City Manager and/or City Council, the contract price shall not be exceeded.

##### 4.10.1 Legal Authority to Bind

The City shall not be bound by the unauthorized action of any of its agents or representatives. Any bidder and the Contractor are responsible for determining whether any person purporting to act on behalf of or to bind the City has the actual authority to do so, prior to relying upon any such statement or claimed authorization.

#### 4.11 Failure to Execute:

Failure to execute the contract shall, at the option of the City, constitute a breach of the agreement made by acceptance of the bid, and the City shall be entitled to forfeiture of the certified check, bank draft, or Bid Bond accompanying the bid that is required, not as a penalty, but as liquidated damages. In the event of failure of a Bidder to whom an award of contract has been made to execute the contract and furnish a Performance Bond within five (5) days after notification of award, such award may be nullified and an award may be made to the next lowest responsive and responsible Bidder approved by the City. Any bidder who seeks any modification of the Contract Documents or of the Agreement is required to notify the City of the same by submitting an alternate bid. Any bidder who submits a bid without identifying any changes in the Contract Documents or the Agreement may be bound to the Contract Documents and the Agreement without revision, at the City's discretion.

#### 4.12 Bid Security:

Unless this section is completely crossed out, each bid shall be accompanied by a bid security in

the amount of 10% of the total amount bid. Bid security shall be in the form of a certified check or cashier's check, drawn on a responsible bank doing business in the United States and made payable to the City of DeKalb, or an original Bid Bond (may NOT be a copy or facsimile) by a surety company which is satisfactory to the City and is qualified to do business in Illinois. Bids not accompanied by a bid security will be rejected. The bid security of the unsuccessful Bidders (if in the form of a certified check or cashier's check) will be returned after the contract is awarded, signed, and the performance security has been provided, or earlier if the City does not deem it necessary to retain the Bid Security. The bid security of the accepted Bidder, (if in the form of a certified check or cashier's check) will be returned either upon execution of a contract and submittal of a performance bond if required by the specifications or, where no performance bond is required, when, in the City's estimation, the contract has been satisfactorily completed and a final inspection has been satisfactorily completed. The final inspection shall occur within thirty (30) days of the date of completion/delivery. When the bid security is submitted in the form of a bid bond, the bond will become null and void following the award of contract and the City's receipt of the Performance Bond and Labor and Material Payment Bond if required by the specifications. Should the Bidder fail to fulfill the contract as set forth, the bid security shall become payable to the City as liquidated damages. All Bid Security shall be held by the City's Finance Department. If deemed necessary by the City, the City may at any time deposit a certified or cashier's check submitted as bid security, and in the event of a refund of such security, the City shall issue a refund check drawn on its accounts.

#### 4.13 Waiver of Lien :

Where applicable, a Waiver of Lien and Contractor's Affidavit must be submitted by the Bidder, verifying that all contractors, subcontractors' materialmen, and material invoices have been paid prior to the City approving payment. Waivers must be in a format acceptable to the City.

## Section 5: Invitation for Bid

#### 5.1 Intent:

The intent of these specifications is to solicit sealed bids from reputable contractors who are capable of providing the specified products and services. The use of the words "Contractor" and "Contract" in this document refer to the firm whose services would be engaged upon successful acceptance of a bid and the agreement that would be executed between the City of DeKalb (hereafter City) and the successful firm.

#### 5.2 Scope:

The Scope of this bid shall include completion of the Work as described in the attached Exhibit R. The bid shall include all aspects associated with the Contractor furnishing products, services, materials, supervision, labor, tools, and equipment necessary to complete the Work as defined

herein in a workmanlike and acceptable manner, meeting or exceeding the quality standards as indicated in the specifications. Services performed or products provided shall be performed/provided with that level of care and skill ordinarily exercised by members of the profession currently practicing in the same locality under similar conditions. In the event that the Contractor fails to meet the foregoing standard, Contractor shall perform at its own cost, and without reimbursement from the City, the professional services necessary to correct errors and omissions caused by the Contractor's failure to comply with the above standard and reported to Contractor within one (1) year from the completion of the Contractor's services for this project and shall indemnify the City from any damages caused as a result thereof.

In the execution of the Work herein provided for there may be interference with and/or damage to trees, shrubbery, crops, fences, railroad tracks, overhead structures, underground structures, water mains, drains, service connections, wires, pipes, conduits or other structures or items located along, adjacent to, and/or crossing the locations of the Work, and that it may be necessary to relocate or reconstruct certain of such structures, improvements, and installations and/or to make repairs to the same by reasons of doing the Work herein provided for, and it is particularly and specifically agreed that the Contractor shall do the Work necessary for such relocation, reconstruction, and repair and shall bear and pay all of the cost and expense of such relocation, reconstruction, and/or repair of and all damage done to all such items or adjacent properties existing at the date of execution of the contract or at the time of the Work which may be interfered with, damaged, and/or relocated, reconstructed, replaced or repaired in the performance of the Work, including the restoration and resurfacing of public streets and alleys, rights of way, easements, and private property damaged or disturbed by the work, the same to be restored to as good condition as existed at the time of commencement of the Work. In the case of any City or publicly owned property damaged by the Contractor, the Contractor shall restore or replace the same subject to any conditions that the City may impose; the Contractor should inquire regarding restoration standards prior to bidding on the project unless it is willing to accept any directives from the City in this regard. The Contractor shall indemnify and hold harmless the City and City Indemnitees from any claims of third parties arising out of damage caused by the Contractor in the performance of the Work. The successful Contractor shall execute a contract in the form attached hereto as Exhibit I within five days of the date of notification that it is the successful Contractor. Failure to execute the Agreement shall constitute grounds for the City to retain the bid security of the Contractor as liquidated damages and to annul the award of the bid to the Contractor (and to either rebid the Work to contract with another bidder).

### 5.3 Qualifications:

The Contractor shall be fully licensed to work in the City, and in the State of Illinois. The Contractor shall submit sufficient evidence of the Contractor's and the Contractor's subcontractors', if any, qualifications and abilities to complete the Contract, including references from similar relationships that are ongoing or recently completed. Subcontractors must also be licensed with the City. Although price is a major consideration, product quality, references, service, delivery time, and past experience, if applicable, will also be considered. No bid will be considered unless the Contractor shall furnish evidence satisfactory to the City that it has the necessary facilities, abilities,

experience, equipment, and financial and physical resources available to fulfill the conditions of the contract and execute the Work should the contract be awarded to it. Bid documents which are not responsive to the requirements herein may not be considered by the City for an award of the contract. The contract will be awarded to the lowest responsible bidder. In determining the responsibility of the bidder, the City may take into account other factors in addition to financial responsibility, such as past records of its or other entities transactions with the Contractor, experience, ability to work cooperatively with the City and its staff, adequacy of equipment, ability to complete performance within necessary time limits, and other pertinent considerations such as, but not limited to, reliability, reputation, competency, skill, experience, efficiency, facilities, and resources. The contract will be awarded in the City's best interests based on these and other legally allowable considerations. The City and its representatives and agents may make any investigations deemed necessary to determine the ability of the bidder to perform the Work. The Contractor shall furnish any information and data requested by the City for this purpose.

#### 5.3.1 Professional Services Selection Act:

The City of DeKalb complies with the Professional Services Selection Act, 50 ILCS 510/5 with regard to the selection of parties to perform covered professional services. Any reference in these terms and conditions to supplying pricing or price as a determining factor in selection does not apply to services covered by said act.

#### 5.4 Contract Management:

This Contract will be under the administration of the City Representative. Detailed daily supervision of the Contract shall be provided by the City Representative or by his or her authorized delegate(s). The City has the right to immediately stop any operation deemed unsafe. The Contractor shall comply with all OSHA and other federal, state, and municipal safety standards and policies. The Contractor shall provide copies of OSHA logs upon request.

#### 5.6 Concurrent Operations:

The proposed Contract is a nonexclusive agreement with the City. The City reserves the right to use other Contractors or its own employees to perform work similar to that being performed under the terms of the Contract. Performance of work by others shall be construed as being consistent with the terms of the Contract and shall not be cause for the Contractor to cease

performance of work as directed.

#### 5.7 Licenses & Permits:

The Contractor shall, at their expense, procure all necessary licenses and permits needed to conduct the work required under the terms of this Contract. The City shall waive the cost of all required City licenses, fees, and permits, with the exception of those licenses and fees associated with securing a business license to conduct business within the City.

#### 5.8 Severability:

If any portion of this Contract is found to be unenforceable by a competent court of law having jurisdiction, the remaining portions of the Contract shall remain in full force and effect.

#### 5.9 Accidents:

In the event of accidents of any kind, the Contractor shall immediately notify the City Supervisor and Police Department to secure a police report for insurance purposes and shall provide a full accounting of all details of the accident. The Contractor shall furnish the City's Legal Department with copies of all reports of such accidents at the same time that the reports are forwarded to any other interested parties. The Contractor shall cooperate fully with any investigation of an accident which occurs on City property or within City buildings.

#### 5.10 Sexual Harassment:

The City will not tolerate any act of sexual harassment by Contractors and their employees. Violation of this policy will be considered grounds for terminating either the Contract or the Contractor's employee from work on this Contract.

#### 5.11 Term of contract:

The initial term of this Contract shall run from execution of contract subject to the right of the City to cancel and terminate the same at any time by giving a thirty (30) day notice in writing to the Contractor. In the event of such cancellation, the Contractor shall be entitled to receive payment for services and work performed, and materials, supplies and equipment furnished under the terms of the Contract prior to the effective date of such cancellation but will not be entitled to receive any damages on account of such or any further payment whatsoever. The following provisions apply only if checked: ☒ One time contract, no term after delivery. ☐ Upon normal expiration of the Contract, the Contractor shall continue, at the sole option of the City, to provide services on a month by month basis, under the same terms and conditions, for a period not to exceed four (4) months. ☐ Upon mutual agreement, this contract may be extended for \_\_\_\_\_, upon a ninety (90) day written notice from the City of its intention to exercise this option. A one (1) time economic adjustment for labor, material, supplies, and equipment costs shall be allowed for each one (1) year extension to the Contract after the initial one (1) year Contract period. This economic adjustment may not exceed the published Chicago Area Consumer Price Index (CPI) for the previous twelve (12) month period. ☐ Other: \_\_\_\_\_ The initial

Contract places no obligation on the City to appropriate funds, and continuation of this Agreement beyond the initial term of the Contract and Contract extensions are dependent upon sufficient funds being appropriated each fiscal year by the City for this work.

#### 5.12 References:

Bidders shall provide a list of not less than five (5) current customers with their bid submittal, said information to include name and address of the firm, and contact names with their daytime phone number, which can speak to the quality of services provided by the Contractor, and the addresses of facilities maintained by the prospective firm. In the event Contractor proposes to utilize Subcontractors, five (5) references shall be provided for each Subcontractor as well.

#### 5.13 Special and Unforeseen Work:

Due to the generalized nature of the work under this Contract, instances may occur where the City desires to have additional materials or services provided outside the original intent of this Contract. Payment for these services shall be made based on a bid price per manhour for the performance of the additional work as bid on the Bid Sheet. Requests for additional work shall be authorized in writing only through the Director or designee. Contractor shall make no claim against the City and no claim shall be allowed for any damages which may arise out of any delay caused by the City or City Indemnitees. Contractor's sole remedy for a City-caused delay shall be a day-for-day extension of time to complete the Contract.

#### 5.14 Exceptions:

Any exceptions to the specifications are to be noted on the Detail Exceptions Sheet and included with the bid at the time of submittal.

#### 5.15 Communications:

The Contractor shall set up a communication process that will enable City representatives to contact appropriate representatives from the Contractor twenty-four (24) hour a day, seven (7) days a week. The Contractor shall provide each Supervisor with a cellular phone, at the Contractor's expense, for communicating with the City officials. The Contractor and the City shall jointly establish a written message system whereby notice may be given by the City to the Contractor indicating problems, complaints, and other Contract discrepancies. The system shall include a method by which the Contractor shall formally respond to these requests and notices.

#### 5.16 Security & Access:

The Contractor may be working in several areas which are under secured access and other areas which will be generally open to the public during reasonable hours for meetings and other uses. All secured areas shall be maintained in a secured condition and these areas shall be locked immediately upon completing the required work. All areas shall be secured when the Contractor has completed their daily operations.

#### 5.17 Hours of Work:

The Contractor shall schedule normal work hours for crews that consider the hours of operations for its services. The Contractor shall provide to the City Representative, for his or her approval, a schedule of proposed regular working hours for all buildings prior to the start of the Contract. Any changes in these regularly scheduled hours shall require prior written notice to and approval by the City Representative. All proposed hours of work shall comply with the then-current City of DeKalb noise ordinances as may be in effect, for work performed in the City of DeKalb.

#### 5.18 Handling of Waste:

The Contractor shall ensure that their personnel properly dispose of waste and recyclables. This shall include recyclable goods and bio-hazards, in accordance with the plans and procedures approved by the City. Under no circumstances shall the contractor dispose of recyclable materials in the trash.

#### 5.19 Work Crew Supervision:

The Contractor shall provide qualified Supervisors to supervise each crew engaged in work under the Contract. The Supervisor shall be authorized by the Contractor to accept and act upon all directives issued by the City Representative. Failure of a Supervisor to act on said directives shall be sufficient cause for the City to give notice that the Contractor is in default of the Contract unless such directives would create potential personal injury or safety hazards or such directives are contrary to the intent of these specifications. The Supervisors shall be responsible for the instruction and training of personnel in the proper work methods and procedures. The Supervisors will schedule and coordinate all services and functions as required by the Contract and as specified in the task schedules. Each Supervisor is required to check and verify Contract compliance before work crews leave each day. The Supervisor shall inform the City Representative of any item(s) which require additional follow-up to fully meet the Contract requirements. The Contractor shall be expected to supply a sufficient number of personnel to be able to complete all workmanship standards as set forth in these specifications. All of the Contractor's personnel shall be fluent in both written English, where essential to the performance of responsibilities, and spoken conversational English, self-motivated, capable of working without direct supervision, and have received appropriate training in order to deal with sexual harassment and bio-hazard handling situations.

The following bracketed paragraph applies only if this section is checked.

**All Contractor employees shall display City approved photo identification badges while working on City premises. No employees shall be allowed access to any area without displaying the required identification badge. Employees shall wear uniforms, which shall consist of a shirt/blouse and pants, consistent in color and appearance, featuring a company identification patch at all times while working on City premises. The City shall be informed of any changes in the uniform articles that the Contractor plans to introduce; uniforms shall be subject to pre- approval by the City.**

#### 5.20.1 Background Investigation:

Where the Contractor is engaging in work of a sensitive nature or working in an environment with exposure to confidential information, or under such other circumstance as the City shall deem appropriate, the City may require the Contractor to comply with the terms of this section 3.21.01. In such case, prior to commencing work, the Contractor shall submit to the Chief of Police, or designee, the names, home addresses, date of birth, social security numbers, immigration documents (if applicable), and driver's license numbers of all employees to be engaged in work specified herein, or having access to the buildings in an inspecting or supervisory capacity, and the Contractor shall cause to be completed fingerprint charts and personal history statements of all employees. **No employees shall commence work at any time during the Contract period until the above listed information has been submitted to and written clearance received from the Chief of Police.** The Contractor shall provide written authorization from prospective employees for the City to perform the security clearances required in this Contract. Employees of the Contractor shall be subject to the same standards of pre-employment examinations as regular full- time employees of the City and shall be held to the same standards of conduct. The Contractor will provide and maintain a current list of employees working on the City account to include locations and times at locations. Copies for the listing shall be issued to the Chief of Police, Director, and Foreman.

The City shall have and shall exercise full and complete control over granting, denying, withholding, or terminating clearance for Contractor's employees. Employees whom the City deems careless, discourteous, or otherwise objectionable or who cannot meet standards required for security or other reasons shall be prohibited from performing work.

## Section 6: Materials & Equipment:

#### 6.1 City to Furnish:

In support of this Contract, the City will supply the Contractor with any items listed on the description of Work. No other items shall be supplied by the City, without the City's express, written consent

#### 6.2 Contractor to Furnish:

The Contractor shall provide, at his/her expense and at no additional cost to the City, all other

equipment and supplies required to support the work activities as specified, with the exception of those items being provided by the City as itemized herein.

The Contractor shall make available to the City samples of the supplies they propose to use to enable the City to assess product quality and safety. If for any reason the City objects to the use of a given product, the Contractor shall discontinue use and find a substitute that is acceptable to the City. Quality assessment shall be at the sole judgment of the City, whose decision shall be final.

All products supplied and used under this Contract shall be new and within product expiration dates. Expired products will not be used. They must meet all applicable federal, state, and local standards for product safety. **Products and containers shall be properly labeled** to meet all applicable standards and regulations regarding safety, toxicity, and other standards. Material Safety Data Sheets (MSDS) shall be supplied as required for all affected products at all sites, and the Contractor is responsible to keep all MSDS books current.

### 6.3 Standards and Workmanship

It is the intent of these specifications for the Contractor to provide a high level of service. The following statements indicate the general standards and workmanship to be furnished under this Contract. More detailed standards and specifications are provided later in these specifications.

#### 6.03.01 Restrictive or Ambiguous Specifications:

It is the responsibility of the bidding firm to review the invitation to bid specifications and to notify the City Representative if the specifications are formulated in a manner that would unnecessarily restrict competition. Any such protest or question regarding the specifications or invitation to bid procedures must be received by the City not later than at the pre-bid meeting. In the event a contract term is not defined within the contract document, the term will be given its ordinary dictionary meaning.

## Section 7: Performance and Payment:

### 7.1 Disputes:

The Contractor will be expected to faithfully perform all work as set forth in these specifications. If the Contractor fails to faithfully perform in accordance with the specifications or if a dispute arises as to the quality and/or quantity of work completed, the City Representative reserves the right to withhold authorization for payment of completed work until such time that performance has been improved or the dispute resolved. In those instances, when a dispute cannot be resolved between the Contractor and the City Representative, the dispute shall be resolved by the City Manager whose decision shall be final.

### 7.2 Payment:

Payment for all work completed and accepted will be made on a monthly basis (where possible, based upon the schedule for submittal of items to regularly scheduled City Council meetings) per

the Contract prices including other agreements authorized in writing as per **Special and Unforeseen Work**. The Contractor shall submit an itemized monthly invoice, by facility, to the City for all work completed during the month, on or before the first Monday of the following month.

Penalties, if any, shall be withheld from the monthly payment by the City. Penalties, if applied, do not limit the right of the City to seek other redress for nonperformance or substandard performance. Penalties shall be assessed per occurrence. The purpose of penalties is to ensure quality of service to the City. For the purpose of penalties, the monthly fee shall be the yearly price divided by twelve (12). Assessment of any penalty shall in no way absolve the Contractor from the responsibility to complete or correct the unsatisfactory or uncompleted work. The City reserves the right to set aside additional retention if deemed necessary by the City to protect against any deficient performance or to otherwise protect the City's interests.

And Urban Development  
Office of Labor Relations

### Applicability

The Project or Program to which the construction work covered by this contract pertains is being assisted by the United States of America and the following Federal Labor Standards Provisions are included in this Contract pursuant to the provisions applicable to such Federal assistance.

**A. 1. (i) Minimum Wages.** All laborers and mechanics employed or working upon the site of the work will be paid unconditionally and not less often than once a week, and without subsequent deduction or rebate on any account (except such payroll deductions as are permitted by regulations issued by the Secretary of Labor under the Copeland Act (29 CFR Part 3), the full amount of wages and bona fide fringe benefits (or cash equivalents thereof) due at time of payment computed at rates not less than those contained in the wage determination of the Secretary of Labor which is attached hereto and made a part hereof, regardless of any contractual relationship which may be alleged to exist between the contractor and such laborers and mechanics. Contributions made or costs reasonably anticipated for bona fide fringe benefits under Section 1(b)(2) of the Davis-Bacon Act on behalf of laborers or mechanics are considered wages paid to such laborers or mechanics, subject to the provisions of 29 CFR 5.5(a)(1)(iv); also, regular contributions made or costs incurred for more than a weekly period (but not less often than quarterly) under plans, funds, or programs, which cover the particular weekly period, are deemed to be constructively made or incurred during such weekly period. Such laborers and mechanics shall be paid the appropriate wage rate and fringe benefits on the wage determination for the classification of work actually performed, without regard to skill, except as provided in 29 CFR 5.5(a)(4). Laborers or mechanics performing work in more than one classification may be compensated at the rate specified for each classification for the time actually worked therein: Provided, That the employer's payroll records accurately set forth the time spent in each classification in which work is performed. The wage determination (including any additional classification and wage rates conformed under 29 CFR 5.5(a)(1)(ii) and the Davis-Bacon poster (WH-1321) shall be posted at all times by the contractor and its subcontractors at the site of the work in a prominent and accessible, place where it can be easily seen by the workers.

**(ii) (a)** Any class of laborers or mechanics which is not listed in the wage determination and which is to be employed under the contract shall be classified in conformance with the wage determination. HUD shall approve an additional classification and wage rate and fringe benefits therefore only when the following criteria have been met:

- (1) The work to be performed by the classification requested is not performed by a classification in the wage determination; and
- (2) The classification is utilized in the area by the construction industry; and
- (3) The proposed wage rate, including any bona fide fringe benefits, bears a reasonable relationship to the wage rates contained in the wage determination.

**(b)** If the contractor and the laborers and mechanics to be employed in the classification (if known), or their representatives, and HUD or its designee agree on the classification and wage rate (including the amount designated for fringe benefits where appropriate), a report of the action taken shall

be sent by HUD or its designee to the Administrator of the Wage and Hour Division, Employment Standards Administration, U.S. Department of Labor, Washington, D.C. 20210. The Administrator or an authorized representative, will approve, modify, or disapprove every additional classification action within 30 days of receipt and so advise HUD or its designee or will notify HUD or its designee within the 30-day period that additional time is necessary. (Approved by the Office of Management and Budget under OMB control number 1215-0140.)

(c) In the event the contractor, the laborers or mechanics to be employed in the classification or their representatives, and HUD or its designee do not agree on the proposed classification and wage rate (including the amount designated for fringe benefits, where appropriate), HUD or its designee shall refer the questions, including the views of all interested parties and the recommendation of HUD or its designee, to the Administrator for determination. The Administrator, or an authorized representative, will issue a determination within 30 days of receipt and so advise HUD or its designee or will notify HUD or its designee within the 30-day period that additional time is necessary. (Approved by the Office of Management and Budget under OMB Control Number 1215-0140.)

(d) The wage rate (including fringe benefits where appropriate) determined pursuant to subparagraphs (1)(ii)(b) or (c) of this paragraph, shall be paid to all workers performing work in the classification under this contract from the first day on which work is performed in the classification.

(iii) Whenever the minimum wage rate prescribed in the contract for a class of laborers or mechanics includes a fringe benefit which is not expressed as an hourly rate, the contractor shall either pay the benefit as stated in the wage determination or shall pay another bona fide fringe benefit or an hourly cash equivalent thereof.

(iv) If the contractor does not make payments to a trustee or other third person, the contractor may consider as part of the wages of any laborer or mechanic the amount of any costs reasonably anticipated in providing bona fide fringe benefits under a plan or program, Provided, That the Secretary of Labor has found, upon the written request of the contractor, that the applicable standards of the Davis-Bacon Act have been met. The Secretary of Labor may require the contractor to set aside in a separate account assets for the meeting of obligations under the plan or program. (Approved by the Office of Management and Budget under OMB Control Number 1215-0140.)

**2. Withholding.** HUD or its designee shall upon its own action or upon written request of an authorized representative of the Department of Labor withhold or cause to be withheld from the contractor under this contract or any other Federal contract with the same prime contractor, or any other Federally-assisted contract subject to Davis-Bacon prevailing wage requirements, which is held by the same prime contractor so much of the accrued payments or advances as may be considered necessary to pay laborers and mechanics, including apprentices, trainees and helpers, employed by the contractor or any subcontractor the full amount of wages required by the contract. In the event of failure to pay any laborer or mechanic, including any apprentice, trainee or helper, employed or working on the site of the work, all or part of the wages required by the contract, HUD or its designee may, after written notice to the contractor, sponsor, applicant, or owner, take such action as may be necessary to cause the suspension of any further payment, advance, or guarantee of funds until such violations have ceased. HUD or its designee may, after written notice to the contractor, disburse such amounts withheld for and on account of the contractor or subcontractor to the respective employees to whom they are due. The Comptroller General shall make such disbursements in the case of direct Davis-Bacon Act contracts.

**3. (i) Payrolls and basic records.** Payrolls and basic records relating thereto shall be maintained by the

contractor during the course of the work preserved for a period of three years thereafter for all laborers and mechanics working at the site of the work. Such records shall contain the name, address, and social security number of each such worker, his or her correct classification, hourly rates of wages paid (including rates of contributions or costs anticipated for bona fide fringe benefits or cash equivalents thereof of the types described in Section 1(b)(2)(B) of the Davis-bacon Act), daily and weekly number of hours worked, deductions made and actual wages paid. Whenever the Secretary of Labor has found under 29 CFR 5.5 (a)(1)(iv) that the wages of any laborer or mechanic include the amount of any costs reasonably anticipated in providing benefits under a plan or program described in Section 1(b)(2)(B) of the Davis-Bacon Act, the contractor shall maintain records which show that the commitment to provide such benefits is enforceable, that the plan or program is financially responsible, and that the plan or program has been communicated in writing to the laborers or mechanics affected, and records which show the costs anticipated or the actual cost incurred in providing such benefits. Contractors employing apprentices or trainees under approved programs shall maintain written evidence of the registration of apprenticeship programs and certification of trainee programs, the registration of the apprentices and trainees, and the ratios and wage rates prescribed in the applicable programs. (Approved by the Office of Management and Budget under OMB Control Numbers 1215-0140 and 1215-0017.)

**(ii) (a)** The contractor shall submit weekly for each week in which any contract work is performed a copy of all payrolls to HUD or its designee if the agency is a party to the contract, but if the agency is not such a party, the contractor will submit the payrolls to the applicant sponsor, or owner, as the case may be, for transmission to HUD or its designee. The payrolls submitted shall set out accurately and completely all of the information required to be maintained under 29 CFR 5.5(a)(3)(i). This information may be submitted in any form desired. Optional Form WH-347 is available for this purpose and may be purchased from the Superintendent of Documents (Federal Stock Number 029-005-00014-1), U.S. Government Printing Office, Washington, DC 20402. The prime contractor is responsible for the submission of copies of payrolls by all subcontractors. (Approved by the Office of Management and Budget under OMB Control Number 1215-0149.)

**(b)** Each payroll submitted shall be accompanied by a "Statement of Compliance," signed by the contractor or subcontractor or his or her agent who pays or supervises the payment of the persons employed under the contract and shall certify the following:

- (1)** That the payroll for the payroll period contains the information required to be maintained under 29 CFR 5.5 (a)(3)(i) and that such information is correct and complete;
- (2)** That each laborer or mechanic (including each helper, apprentice, and trainee) employed on the contract during the payroll period has been paid the full weekly wages earned, without rebate, either directly or indirectly, and that no deductions have been made either directly or indirectly from the full wages earned, other than permissible deductions as set forth in 29 CFR Part 3;
- (3)** That each laborer or mechanic has been paid not less than the applicable wage rates and fringe benefits or cash equivalents for the classification of work performed, as specified in the applicable wage determination incorporated into the contract.

**(c)** The weekly submission of a properly executed certification set forth on the reverse side of Optional Form WH-347 shall satisfy the requirement for submission of the "Statement of Compliance" required by subparagraph A.3.(ii)(b).

**(d)** The falsification of any of the above certifications may subject the contractor or subcontractor to civil or criminal prosecution under Section 1001 of Title 18 and Section 231 of Title 31 of

the United States Code.

(iii) The contractor or subcontractor shall make the records required under subparagraph A.3.(i) available for inspection, copying, or transcription by authorized representatives of HUD or its designee or the Department of Labor, and shall permit such representatives to interview employees during working hours on the job. If the contractor or subcontractor fails to submit the required records or to make them available, HUD or its designee may, after written notice to the contractor, sponsor, applicant or owner, take such action as may be necessary to cause the suspension of any further payment, advance, or guarantee of funds. Furthermore, failure to submit the required records upon request or to make such records available may be grounds for debarment action pursuant to 29 CFR 5.12.

#### **4. Apprentices and Trainees**

(i) **Apprentices.** Apprentices will be permitted to work at less than the predetermined rate for the work they performed when they are employed pursuant to and individually registered in a bona fide apprenticeship program registered with the U.S. Department of Labor, Employment and Training Administration, Office of Apprenticeship Training, Employer and Labor Services, or with a State Apprenticeship Agency recognized by the Office, or if a person is employed in his or her first 90 days of probationary employment as an apprentice in such an apprenticeship program, who is not individually registered in the program, but who has been certified by the Office of Apprenticeship Training, Employer and Labor Services or a State Apprenticeship Agency (where appropriate) to be eligible for probationary employment as an apprentice. The allowable ratio of apprentices to journeymen on the job site in any craft classification shall not be greater than the ratio permitted to the contractor as to the entire work force under the registered program. Any worker listed on a payroll at an apprentice wage rate, who is not registered or otherwise employed as stated above, shall be paid not less than the applicable wage rate on the wage determination for the classification of work actually performed. In addition, any apprentice performing work on the job site in excess of the ratio permitted under the registered program shall be paid not less than the applicable wage rate on the wage determination for the work actually performed. Where a contractor is performing construction on a project in a locality other than that in which its program is registered, the ratios and wage rates (expressed in percentages of the journeyman's hourly rate) specified in the contractor's or subcontractor's registered program shall be observed. Every apprentice must be paid at not less than the rate specified in the registered program for the apprentice's level of progress, expressed as a percentage of the journeymen hourly rate specified in the applicable wage determination. Apprentices shall be paid fringe benefits in accordance with the provisions of the apprenticeship program. If the apprenticeship program does not specify fringe benefits, apprentices must be paid the full amount of fringe benefits listed on the wage determination for the applicable classification. If the Administrator determines that a different practice prevails for the applicable apprentice classification, fringes shall be paid in accordance with that determination. In the event the Office of Apprenticeship Training, Employer and Labor Services, or a State Apprenticeship Agency recognized by the Office, withdraws approval of an apprenticeship program, the contractor will no longer be permitted to utilize apprentices at less than the applicable predetermined rate for the work performed until an acceptable program is approved.

(ii) **Trainees.** Except as provided in 29 CFR 5.16, trainees will not be permitted to work at less than the predetermined rate for the work performed unless they are employed pursuant to and individually registered in a program which has received prior approval, evidenced by formal certification by the U.S. Department of Labor, Employment and Training Administration. The ratio of trainees to journeymen on the job site shall not be greater than permitted under the plan approved by the Employment and Training Administration. Every trainee must be paid at not less than the rate specified in

the approved program for the trainee's level of progress, expressed as a percentage of the journeyman hourly rate specified in the applicable wage determination. Trainees shall be paid fringe benefits in accordance with the provisions of the trainee program. If the trainee program does not mention fringe benefits, trainees shall be paid the full amount of fringe benefits listed on the wage determination unless the Administrator of the Wage and Hour Division determines that there is an apprenticeship program associated with the corresponding journeyman wage rate on the wage determination which provides for less than full fringe benefits for apprentices. Any employee listed on the payroll at a trainee rate who is not registered and participating in a training plan approved by the Employment and Training Administration shall be paid not less than the applicable wage rate on the wage determination for the work actually performed. In addition, any trainee performing work on the job site in excess of the ratio permitted under the registered program shall be paid not less than the applicable wage rate on the wage determination for the work actually performed. In the event the Employment and Training Administration withdraws approval of a training program, the contractor will no longer be permitted to utilize trainees at less than the applicable predetermined rate for the work performed until an acceptable program is approved.

**(iii) Equal employment opportunity.** The utilization of apprentices, trainees and journeymen under 29 CFR Part 5 shall be in conformity with the equal employment opportunity requirements of Executive Order 11246, as amended, and 29 CFR Part 30.

Exhibit B      Attachment to Federal Labor Standards Provisions So-Called “Anti-Kickback Act”  
And Regulations Promulgated Pursuant Thereto by the Secretary of Labor, United States  
Department of Labor:

**HUD-4010.1**  
**(2-76)**

**TITLE 18, U.S.C., SECTION 874**

*(Replaces Section 1 of the Act of June 13, 1934 (48 Stat. 948, 40 U.S.C., Sec. 276b) pursuant to the Act of June 25, 1948, 62 Stat. 862)*

**Kickbacks from Public Works Employees**

Whoever, by force, intimidation, or threat of procuring dismissal from employment, or by any other manner whatsoever induces any person employed in the construction, prosecution, completion or repair of any public building, public work, or building or work financed in whole or in part by loans or grants from the United States, to give up any part of the compensation to which he is entitled under his contract of employment, shall be fined not more than \$5,000 or imprisoned not more than five years, or both.

**Section 2 of the Act of June 13, 1934, As Amended (48 Stat. 948, 62 Stat. 862, 63 Stat. 108, 72 Stat. 967, 40 U.S.C., Sec. 276c)**

The Secretary of Labor shall make reasonable regulations for contractors and subcontractors engaged in the construction, prosecution, completion or repair of public buildings, public works or buildings or works financed in whole or in part by loans or grants from the United States, including a provision that each contractor and subcontractor shall furnish weekly a statement with respect to the wages paid each employee during the preceding week. Section 1001 of Title 18 (United States Code) shall apply to such statements.

Pursuant to aforesaid Anti-Kickback Act, the Secretary of Labor, United States Department of Labor, has promulgated the regulations hereinafter set forth, which regulations are found in Title 29, Subtitle A, Code of Federal Regulations, Part 3. The term "this part", as used in the regulations hereinafter set forth, refers to Part 3 last above mentioned. Said regulations are as follows:

**Title 29 – Labor**

**Subtitle A – Office of the Secretary of Labor**

**Part 3 – Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States**

**Section 3.1. Purpose and Scope.**

This part prescribes "anti-kickback" regulations under Section 2 of the Act of June 13, 1934, as amended (40 U.S.C. 276c), popularly known as the Copeland Act. This part applies to any contract which is subject to Federal wage standards and which is for the construction, prosecution, completion, or repair of public buildings, public works or buildings or works financed in whole or in part by loans or grants from the United States. The part is intended to aid in the enforcement of the minimum wage provisions of the Davis-

Bacon Act and the various statutes dealing with Federally-assisted construction that contain similar minimum wage provisions, including those provisions which are not subject to reorganization Plan No. 14 (e.g., the College Housing Act of 1950, the Federal Water Pollution Control Act, and the Housing Act of 1959), and the enforcement of the overtime provisions of the Contract Work Hours Standards Act whenever they are applicable to construction work. The part details the obligation of contractors and subcontractors relative to the weekly submission of statements regarding the wage paid on work covered thereby; sets for the circumstances and procedures governing the making of payroll deductions with the wages of those employed on such work; and delineates the methods of payment permissible on such work.

### **Section 3.2 Definitions.**

As used in the regulations in this part:

(a) The term "building" or "work" generally include construction activity as distinguished from manufacturing, furnishing of materials, or servicing and maintenance work. The terms include, without limitation, buildings, structures, and improvements of all types, such as bridges, dams, plants, highways, parkways, streets, subways, tunnels, sewers, mains, power lines, pumping stations, railways, airports, terminals, docks, piers, wharves, ways, lighthouses, buoys, jetties, breakwaters, levees, and canals, dredging, shoring, scaffolding, drilling, blasting, excavating, clearing and landscaping. Unless conducted in connection with and at the site of such a building or work as is described in the foregoing sentence, the manufacture or furnishing of materials, articles, supplies, or equipment (whether or not a Federal or State agency acquires title to such materials, articles, supplies, or equipment during the course of the manufacture or furnishing, or owns the materials from which they are manufactured or furnished) is not a "building" or "work" within the meaning of the regulations in this part.

(b) The terms "construction", "prosecution", "completion", or "repair" mean all types of work done on a particular building or work at the site thereof, including, without limitation, altering, remodeling, painting and decorating, the transporting of materials and supplies to or from the building or work by the employees of the construction contractor or construction subcontractor, and the manufacturing or furnishing of materials, articles, supplies, or equipment on the site of the building or work, by persons employed at the site by the contractor or subcontractor.

(c) The terms "public building" or "public work" include building or work for whose construction, prosecution, completion, or repair, as defined above, a Federal agency is a contracting party, regardless of whether title thereof is in a Federal agency.

(d) The term "building or work financed in whole or in part by loans or grants from the United States" includes buildings or work for whose construction, prosecution, completion, or repair, as defined above, payment or party payment is made directly or indirectly from funds provided by loans or grants by a Federal agency. The term does not include building or work for which Federal assistance is limited solely to loan guarantees or insurance.

(e) Every person paid by a contractor or subcontractor in any manner for his labor in the construction, prosecution, completion, or repair of a public building or public work or building financed in whole or in part by loans or grants from the United States is "employed" and receiving "wages", regardless of any contractual relationship alleged to exist between him and the real employer.

(f) The term "any affiliated person" includes a spouse, child, parent, or other close relative of the contractor or subcontractor; a partner or officer of the contractor or subcontractor; a corporation closely connected with the contractor or subcontractor as parent, subsidiary or otherwise, and an officer or agent of such corporation.

(g) The term "Federal agency" means the United States, the District of Columbia, and all executive departments, independent establishments, administrative agencies, and instrumentalities of the United States and of the District of Columbia, including corporations, all or substantially all of the stock of which is beneficially owned by the United States, by the District of Columbia, or any of the foregoing departments, establishments, agencies, and instrumentalities.

### **Section 3.3 Weekly statement with respect to payment of wages.**

(a) As used in this section, the term "employee" shall not apply to persons in classifications higher than that of laborer or mechanic and those who are the immediate supervisors of such employees.

(b) Each contractor or subcontractor engaged in the construction, prosecution, completion, or repair of any public building or public work, or building or work financed in whole or in part by loans or grants from the United States, shall furnish each week a statement with respect to the wages paid each of its employees engaged on work covered by 29 CFR Parts 3 and 5 during the preceding weekly payroll period. This statement shall be executed by the contractor or subcontractor or by an authorized officer or employee of the contractor or subcontractor who supervises the payment of wages, and shall be on form WH 3-18, "Statement of Compliance", or on an identical form on the back of WH 3-17, "Payroll (For Contractors Optional Use)" or on any form with identical wording. Sample copies of WH 3-17 and WH 3-18 may be obtained from the Government contracting or sponsoring agency, and copies of these forms may be purchased at the Government Printing Office.

(c) The requirements of this section shall not apply to any contract of \$2,000 or less.

(d) Upon a written finding by the head of a Federal agency, the Secretary of Labor may provide reasonable limitations, variations, tolerances, and exemptions from the requirements of this section subject to such conditions as the Secretary of Labor may specify.

**29 F.R. 95, Jan 4, 1964, as amended at 33 F.R. 10186, July 17, 1968**

### **Section 3.4 Submission of weekly statements and the preservation and inspection of weekly payroll records.**

(a) Each weekly statement required under Section 3.3 shall be delivered by the contractor or subcontractor, within seven days after the regular payment date of the payroll period, to a representative of a Federal or State agency in charge at the site of the building or work, or, if there is no representative of a Federal or State agency at the site of the building or work, the statement shall be mailed by the contractor or subcontractor, within such time, to a Federal or State agency contracting for or financing the building or work. After such examination and check as may be made, such statement, or a copy thereof, shall be kept available, or shall be transmitted together with a report or any violation, in accordance with applicable procedures prescribed by the United States Department of Labor.

(b) Each contractor or subcontractor shall preserve his weekly payroll records for a period of three years from the date of completion of the contract. The payroll records shall set out accurately and completely the name and address of each laborer and mechanic, his correct classification, rate of pay, daily and weekly number of hours worked, deductions made, and actual wages paid. Such payroll records shall be made available at all times for inspection by the contracting officer or his authorized representative, and by authorized representatives of the Department of Labor.

### **Section 3.5 Payroll deductions permissible without application to or approval of the Secretary of Labor.**

Deductions made under the circumstances or in the situations described in the paragraphs of this section may be made without application to and approval of the Secretary of Labor. Any deduction made in compliance with the requirements of Federal, State, or local law, such as Federal or State withholding income taxes and Federal social security taxes.

(a) Any deduction of sums previously paid to the employee as a bona fide prepayment of wages when such prepayment is made without discount or interest. A "bona fide prepayment of wages" is considered to have been made only when cash or its equivalent has been advanced to the person employed in such manner as to give him complete freedom of disposition of the advanced funds.

(b) Any deduction of amounts required by court process to be paid to another, unless the deduction is in favor of the contractor, subcontractor or any affiliated person, or when collusion or collaboration exists.

(c) Any deduction constituting a contribution on behalf of the person employed to funds established by the employer or representatives of employees, or both, for the purpose of providing either from principal or income, or both, medical or hospital care, pensions or annuities on retirement, death benefits, compensation for injuries, illness, accidents, sickness, or disability, or for insurance to provide any of the foregoing, or unemployment benefits, vacation pay, savings accounts, or similar payments for the benefit of employees, their families and dependents: Provided, however, that the following standards are met: (1) the deduction is not otherwise prohibited by law; (2) it is either: (i) voluntarily consented to by the employee in writing and in advance of the period in which the work is to be done and such consent is not a condition either for the obtaining of or for the continuation of employment, or (ii) provided for in a bona fide collective bargaining agreement between the contractor or subcontractor and representatives of its employees; (3) no profit or other benefit is otherwise obtained, directly or indirectly, by the contractor or subcontractor or any affiliated person in the form of commission, dividend, or otherwise; and (4) the deductions shall serve the convenience and interest of the employee.

(d) Any deduction contributing toward the purchase of United States Defense Stamps and Bonds when voluntarily authorized by the employee.

(e) Any deduction requested by the employer to enable him to repay loans to or to purchase shares in credit unions organized and operated in accordance with Federal and State credit union statutes.

(f) Any deduction voluntarily authorized by the employee for the making of contributions to governmental or quasi-governmental agencies, such as the American Red Cross.

(g) Any deduction voluntarily authorized by the employee for the making of contributions to Community Chests, United Givers Funds, and similar charitable organizations.

(h) Any deductions to pay regular union initiation fees and membership dues, not including fines or special assessments: Provided, however, that a collective bargaining agreement between the contractor or subcontractor and representatives of its employees provides for such deductions and the deductions are not otherwise prohibited by law.

(i) Any deduction not more than for the "reasonable cost" of board, lodging, or other facilities meeting the requirements of Section 3(m) of the Fair Labor Standards Act of 1938, as amended, and Part 531 of this title. When such a deduction is made, the additional records required under Section 516.27(a) of this title shall be kept.

### **Section 3.6 Payroll deductions permissible with the approval of the Secretary of Labor.**

Any contractor or subcontractor may apply to the Secretary of Labor for permission to make any deduction not permitted under Section 3.5. The Secretary may grant permission whenever he finds that:

- (a) The contractor, subcontractor, or any affiliated person does not make a profit or benefit directly or indirectly from the deduction either in the form of a commission, dividend, or otherwise;
- (b) The deduction is not otherwise prohibited by law; The deduction is either (1) voluntarily consented to by the employee in writing and in advance of the period in which the work is to be done and such consent is not a condition either for the obtaining of employment or its continuance, or (2) provided for in a bona fide collective bargaining agreement between the contractor or subcontractor and representatives of its employees; and
- (c) The deduction serves the convenience and interest of the employee.

### **Section 3.7 Applications for the approval of the Secretary of labor**

Any application for the making of payroll deductions under Section 3.6 shall comply with the requirements prescribed in the following paragraphs of this section:

- (a) The application shall be in writing and shall be addressed to the Secretary of Labor.
- (b) The application shall identify the contract(s) under which the work in question is to be performed. Permission will be given for deductions only on specific, identified contracts, except upon a showing of exceptional circumstances.
- (c) The application shall state affirmatively that there is compliance with the standards set forth in the provisions of Section 3.6. The affirmation shall be accompanied by a full statement on the facts indicating such compliance.
- (d) The application shall include a description of the proposed deduction, the purpose to be served thereby and the classes of laborers or mechanics from whose wages the proposed deduction would be made.
- (e) The application shall state the name and business of any third person to whom any funds obtained from the proposed deductions are to be transmitted and the affiliation of such person, if any, with the applicant.

### **Section 3.8 Action by the Secretary of labor upon applications.**

The Secretary of Labor shall decide whether or not the requested deduction is permissible under provisions of Section 3.6 and shall notify the applicant in writing of his decision.

### **Section 3.9 Prohibited payroll deductions**

Deductions not elsewhere provided for by this part and which are not found to be permissible under Section are prohibited.

### **Section 3.10 Methods of payment of wages.**

The payment of wages shall be by cash, negotiable instruments payable on demand, or the additional forms of compensation for which deductions are permissible under this part. No other methods of payment shall be recognized on work subject to the Copeland Act.

**Section 3.11 Regulations part of contract.**

All contracts made with respect to the construction, prosecution, completion, or repair of any public building or public work or building or work financed in whole or in part by loans or grants from the United States covered by the regulations in this part shall expressly bind the contractor or subcontractor to comply with such of the regulations in this part as may be applicable. In this regard, see Section 5.5(a) of this subtitle.

## Exhibit C Payrolls and Basic Records

Payrolls and basic records relating thereto will be maintained during the course of the work and preserved for a period of three years thereafter for all laborers and mechanics working at the site of the work, in the construction of development of the project. Such records will contain the name and address of each employee, his correct classification, rates of pay (including rates of contributions or costs anticipated of the types described in Section 1(b)(2) of the Davis-Bacon Act), daily and weekly number of hours worked, deductions made, and actual wages paid.

Payrolls shall be submitted weekly to the City of DeKalb from the first week of construction through completion of construction for each contractor or subcontractor on the job.

Note: Executive Order (EO) 13706, Establishing Paid Sick Leave for Federal Contractors applies to all contracts subject to the Davis-Bacon Act for which the contract is awarded (and any solicitation was issued) on or after January 1, 2017. If this contract is covered by the EO, the contractor must provide employees with 1 hour of paid sick leave for every 30 hours they work, up to 56 hours of paid sick leave each year. Employees must be permitted to use paid sick leave for their own illness, injury or other health-related needs, including preventive care; to assist a family member (or person who is like family to the employee) who is ill, injured, or has other health-related needs, including preventive care; or for reasons resulting from, or to assist a family member (or person who is like family to the employee) who is a victim of, domestic violence, sexual assault, or stalking. Additional information on contractor requirements and worker protections under the EO is available at <https://www.dol.gov/agencies/whd/government-contracts>.

Unlisted classifications needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29CFR 5.5 (a) (1) (ii)).

-----  
The body of each wage determination lists the classification and wage rates that have been found to be prevailing for the cited type(s) of construction in the area covered by the wage determination. The classifications are listed in alphabetical order of ""identifiers"" that indicate whether the particular rate is a union rate (current union negotiated rate for local), a survey rate (weighted average rate) or a union average rate (weighted union average rate).

Union Rate Identifiers

A four letter classification abbreviation identifier enclosed

in dotted lines beginning with characters other than ""SU"" or ""UAVG"" denotes that the union classification and rate were prevailing for that classification in the survey. Example: PLUM0198-005 07/01/2014. PLUM is an abbreviation identifier of the union which prevailed in the survey for this classification, which in this example would be Plumbers. 0198 indicates the local union number or district council number where applicable, i.e., Plumbers Local 0198. The next number, 005 in the example, is an internal number used in processing the wage determination. 07/01/2014 is the effective date of the most current negotiated rate, which in this example is July 1, 2014.

Union prevailing wage rates are updated to reflect all rate changes in the collective bargaining agreement (CBA) governing this classification and rate.

#### Survey Rate Identifiers

Classifications listed under the ""SU"" identifier indicate that no one rate prevailed for this classification in the survey and the published rate is derived by computing a weighted average rate based on all the rates reported in the survey for that classification. As this weighted average rate includes all rates reported in the survey, it may include both union and non-union rates. Example: SULA2012-007 5/13/2014. SU indicates the rates are survey rates based on a weighted average calculation of rates and are not majority rates. LA indicates the State of Louisiana. 2012 is the year of survey on which these classifications and rates are based. The next number, 007 in the example, is an internal number used in producing the wage determination. 5/13/2014 indicates the survey completion date for the classifications and rates under that identifier.

Survey wage rates are not updated and remain in effect until a new survey is conducted.

#### Union Average Rate Identifiers

Classification(s) listed under the UAVG identifier indicate that no single majority rate prevailed for those classifications; however, 100% of the data reported for the classifications was union data. EXAMPLE: UAVG-OH-0010 08/29/2014. UAVG indicates that the rate is a weighted union average rate. OH indicates the state. The next number, 0010 in the example, is an internal number used in producing the wage determination. 08/29/2014 indicates the survey completion date for the classifications and rates under that identifier.

A UAVG rate will be updated once a year, usually in January of each year, to reflect a weighted average of the current negotiated/CBA rate of the union locals from which the rate is based.

#### WAGE DETERMINATION APPEALS PROCESS

1.) Has there been an initial decision in the matter? This can be:

- \* a survey underlying a wage determination
- \* a Wage and Hour Division letter setting forth a position on a wage determination matter

On survey related matters, initial contact, including requests for summaries of surveys, should be with the Wage and Hour National Office because National Office has responsibility for the Davis-Bacon survey program. If the response from this initial contact is not satisfactory, then the process described in 2.) and 3.) should be followed.

With regard to any other matter not yet ripe for the formal process described here, initial contact should be with the Branch of Construction Wage Determinations. Write to:

The request should be accompanied by a full statement of the interested party's position and by any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

## **BITUMINOUS MATERIALS COST ADJUSTMENTS (BDE)**

Effective: November 2, 2006

Revised: August 1, 2017

Description. Bituminous material cost adjustments will be made to provide additional compensation to the Contractor, or credit to the Department, for fluctuations in the cost of bituminous materials when optioned by the Contractor. The bidder shall indicate with their bid whether or not this special provision will be part of the contract.

The adjustments shall apply to permanent and temporary hot-mix asphalt (HMA) mixtures, bituminous surface treatments (cover and seal coats), and preventative maintenance type surface treatments that are part of the original proposed construction, or added as extra work and paid for by agreed unit prices. The adjustments shall not apply to bituminous prime coats, tack coats, crack filling/sealing, joint filling/sealing, or extra work paid for at a lump sum price or by force account.

Method of Adjustment. Bituminous materials cost adjustments will be computed as follows.

$$CA = (BPI_P - BPI_L) \times (\%AC_V / 100) \times Q$$

Where: CA = Cost Adjustment, \$.

BPI<sub>P</sub> = Bituminous Price Index, as published by the Department for the month the work is performed, \$/ton (\$/metric ton).

BPI<sub>L</sub> = Bituminous Price Index, as published by the Department for the month prior to the letting for work paid for at the contract price; or for the month the agreed unit price letter is submitted by the Contractor for extra work paid for by agreed unit price, \$/ton (\$/metric ton).

%AC<sub>V</sub> = Percent of virgin Asphalt Cement in the Quantity being adjusted. For HMA mixtures, the % AC<sub>V</sub> will be determined from the adjusted job mix formula. For bituminous materials applied, a performance graded or cutback asphalt will be considered to be 100% AC<sub>V</sub> and undiluted emulsified asphalt will be considered to be 65% AC<sub>V</sub>.

Q = Authorized construction Quantity, tons (metric tons) (see below).

For HMA mixtures measured in square yards:  $Q, \text{ tons} = A \times D \times (G_{mb} \times 46.8) / 2000$ . For HMA mixtures measured in square meters:  $Q, \text{ metric tons} = A \times D \times (G_{mb} \times 1) / 1000$ . When computing adjustments for full-depth HMA pavement, separate calculations will be made for the binder and surface courses to account for their different  $G_{mb}$  and % AC<sub>V</sub>.

For bituminous materials measured in gallons:  $Q, \text{ tons} = V \times 8.33 \text{ lb/gal} \times SG / 2000$

For bituminous materials measured in liters:  $Q, \text{ metric tons} = V \times 1.0 \text{ kg/L} \times SG / 1000$

Where: A = Area of the HMA mixture, sq yd (sq m).

D = Depth of the HMA mixture, in. (mm).

$G_{mb}$  = Average bulk specific gravity of the mixture, from the approved mix design.

V = Volume of the bituminous material, gal (L).

SG = Specific Gravity of bituminous material as shown on the bill of lading.

Basis of Payment. Bituminous materials cost adjustments may be positive or negative but will only be made when there is a difference between the  $BPI_L$  and  $BPI_P$  in excess of five percent, as calculated by:

$$\text{Percent Difference} = \{(BPI_L - BPI_P) \div BPI_L\} \times 100$$

Bituminous materials cost adjustments will be calculated for each calendar month in which applicable bituminous material is placed; and will be paid or deducted when all other contract requirements for the work placed during the month are satisfied. The adjustments shall not apply during contract time subject to liquidated damages for completion of the entire contract.

## **COMPENSABLE DELAY COSTS (BDE)**

Effective: June 2, 2017

Revised: April 1, 2019

Revise Article 107.40(b) of the Standard Specifications to read:

“(b) Compensation. Compensation will not be allowed for delays, inconveniences, or damages sustained by the Contractor from conflicts with facilities not meeting the above definition; or if a conflict with a utility in an unanticipated location does not cause a shutdown of the work or a documentable reduction in the rate of progress exceeding the limits set herein. The provisions of Article 104.03 notwithstanding, compensation for delays caused by a utility in an unanticipated location will be paid according to the provisions of this Article governing minor and major delays or reduced rate of production which are defined as follows.

- (1) Minor Delay. A minor delay occurs when the work in conflict with the utility in an unanticipated location is completely stopped for more than two hours, but not to exceed two weeks.
- (2) Major Delay. A major delay occurs when the work in conflict with the utility in an unanticipated location is completely stopped for more than two weeks.
- (3) Reduced Rate of Production Delay. A reduced rate of production delay occurs when the rate of production on the work in conflict with the utility in an unanticipated location decreases by more than 25 percent and lasts longer than seven calendar days.”

Revise Article 107.40(c) of the Standard Specifications to read:

“(c) Payment. Payment for Minor, Major, and Reduced Rate of Production Delays will be made as follows.

- (1) Minor Delay. Labor idled which cannot be used on other work will be paid for according to Article 109.04(b)(1) and (2) for the time between start of the delay and the minimum remaining hours in the work shift required by the prevailing practice in the area.

Equipment idled which cannot be used on other work, and which is authorized to standby on the project site by the Engineer, will be paid for according to Article 109.04(b)(4).

- (2) Major Delay. Labor will be the same as for a minor delay.

Equipment will be the same as for a minor delay, except Contractor-owned equipment will be limited to two weeks plus the cost of move-out to either the

Contractor's yard or another job and the cost to re-mobilize, whichever is less. Rental equipment may be paid for longer than two weeks provided the Contractor presents adequate support to the Department (including lease agreement) to show retaining equipment on the job is the most economical course to follow and in the public interest.

- (3) **Reduced Rate of Production Delay.** The Contractor will be compensated for the reduced productivity for labor and equipment time in excess of the 25 percent threshold for that portion of the delay in excess of seven calendar days. Determination of compensation will be in accordance with Article 104.02, except labor and material additives will not be permitted.

Payment for escalated material costs, escalated labor costs, extended project overhead, and extended traffic control will be determined according to Article 109.13."

Revise Article 108.04(b) of the Standard Specifications to read:

"(b) No working day will be charged under the following conditions.

- (1) When adverse weather prevents work on the controlling item.
- (2) When job conditions due to recent weather prevent work on the controlling item.
- (3) When conduct or lack of conduct by the Department or its consultants, representatives, officers, agents, or employees; delay by the Department in making the site available; or delay in furnishing any items required to be furnished to the Contractor by the Department prevents work on the controlling item.
- (4) When delays caused by utility or railroad adjustments prevent work on the controlling item.
- (5) When strikes, lock-outs, extraordinary delays in transportation, or inability to procure critical materials prevent work on the controlling item, as long as these delays are not due to any fault of the Contractor.
- (6) When any condition over which the Contractor has no control prevents work on the controlling item."

Revise Article 109.09(f) of the Standard Specifications to read:

"(f) **Basis of Payment.** After resolution of a claim in favor of the Contractor, any adjustment in time required for the work will be made according to Section 108. Any adjustment in the costs to be paid will be made for direct labor, direct materials, direct equipment, direct jobsite overhead, direct offsite overhead, and other direct costs allowed by the resolution. Adjustments in costs will not be made for interest charges, loss of anticipated profit, undocumented loss of efficiency, home office overhead and unabsorbed overhead

other than as allowed by Article 109.13, lost opportunity, preparation of claim expenses and other consequential indirect costs regardless of method of calculation.

The above Basis of Payment is an essential element of the contract and the claim cost recovery of the Contractor shall be so limited."

Add the following to Section 109 of the Standard Specifications.

**"109.13 Payment for Contract Delay.** Compensation for escalated material costs, escalated labor costs, extended project overhead, and extended traffic control will be allowed when such costs result from a delay meeting the criteria in the following table.

Contract Type	Cause of Delay	Length of Delay
Working Days	Article 108.04(b)(3) or Article 108.04(b)(4)	No working days have been charged for two consecutive weeks.
Completion Date	Article 108.08(b)(1) or Article 108.08(b)(7)	The Contractor has been granted a minimum two week extension of contract time, according to Article 108.08.

Payment for each of the various costs will be according to the following.

- (a) Escalated Material and/or Labor Costs. When the delay causes work, which would have otherwise been completed, to be done after material and/or labor costs have increased, such increases will be paid. Payment for escalated material costs will be limited to the increased costs substantiated by documentation furnished by the Contractor. Payment for escalated labor costs will be limited to those items in Article 109.04(b)(1) and (2), except the 35 percent and 10 percent additives will not be permitted.
- (b) Extended Project Overhead. For the duration of the delay, payment for extended project overhead will be paid as follows.
  - (1) Direct Jobsite and Offsite Overhead. Payment for documented direct jobsite overhead and documented direct offsite overhead, including onsite supervisory and administrative personnel, will be allowed according to the following table.

Original Contract Amount	Supervisory and Administrative Personnel
Up to \$5,000,000	One Project Superintendent
Over \$ 5,000,000 - up to \$25,000,000	One Project Manager, One Project Superintendent or Engineer, and One Clerk
Over \$25,000,000 - up to \$50,000,000	One Project Manager, One Project Superintendent, One Engineer, and

	One Clerk
Over \$50,000,000	One Project Manager, Two Project Superintendents, One Engineer, and One Clerk

(2) Home Office and Unabsorbed Overhead. Payment for home office and unabsorbed overhead will be calculated as 8 percent of the total delay cost.

(c) Extended Traffic Control. Traffic control required for an extended period of time due to the delay will be paid for according to Article 109.04.

When an extended traffic control adjustment is paid under this provision, an adjusted unit price as provided for in Article 701.20(a) for increase or decrease in the value of work by more than ten percent will not be paid.

Upon payment for a contract delay under this provision, the Contractor shall assign subrogation rights to the Department for the Department's efforts of recovery from any other party for monies paid by the Department as a result of any claim under this provision. The Contractor shall fully cooperate with the Department in its efforts to recover from another party any money paid to the Contractor for delay damages under this provision."

## **HOT-MIX ASPHALT (BDE)**

Effective: January 1, 2022

Revised: August 1, 2022

Replace Article 1030.09(g)(1) of the Standard Specifications with the following:

“(1) The Contractor shall sample approximately 150 lb (70 kg) of mix as required for the Department’s random mixture verification tests according to Article 1030.09(h)(1).”

Replace the second sentence of Article 1030.09(h)(1) of the Standard Specifications with the following:

“The Engineer will randomly identify one sample for each 3,000 tons (2,720 metric tons) of mix, with a minimum of one sample per mix. If the remaining mix quantity is 600 tons (544 metric tons) or less, the quantity will be combined with the previous 3,000 tons (2,720 metric tons) in the Engineer’s random sample identification. If the required tonnage of a mixture for a single pay item is less than 250 tons (225 metric tons) in total, the Engineer will waive mixture verification tests.”

Add the following to the end of the third paragraph of Article 1030.09(h)(2) of the Standard Specifications:

“The HMA maximum theoretical specific gravity ( $G_{mm}$ ) will be based on the Department mixture verification test. If there is more than one Department mixture verification  $G_{mm}$  test, the  $G_{mm}$  will be based on the average of the Department test results.”

Add the following paragraph between the third and four paragraphs of Article 1030.10 of the Standard Specifications:

“When a test strip is not required, each HMA mixture with a quantity of 3,000 tons (2,750 metric tons) or more shall still be sampled on the first day of production: I-FIT and Hamburg wheel testing for High ESAL; I-FIT testing for Low ESAL. Within two working days after sampling the mixture, the Contractor shall deliver gyratory cylinders to the District laboratory for Department verification testing. The High ESAL mixture test results shall meet the requirements of Articles 1030.05(d)(3) and 1030.05(d)(4). The Low ESAL mixture test results shall meet the requirements of Article 1030.05(d)(4).”

## **HOT-MIX ASPHALT – PATCHING (BDE)**

## WORK ZONE TRAFFIC CONTROL DEVICES (BDE)

Effective: March 2, 2020

Add the following to Article 701.03 of the Standard Specifications:

“(q) Temporary Sign Supports ..... 1106.02”

Revise the third paragraph of Article 701.14 of the Standard Specifications to read:

“For temporary sign supports, the Contractor shall provide a FHWA eligibility letter for each device used on the contract. The letter shall provide information for the set-up and use of the device as well as a detailed drawing of the device. The signs shall be supported within 20 degrees of vertical. Weights used to stabilize signs shall be attached to the sign support per the manufacturer’s specifications.”

Revise the first paragraph of Article 701.15 of the Standard Specifications to read:

“**701.15 Traffic Control Devices.** For devices that must meet crashworthiness standards, the Contractor shall provide a manufacturer’s self-certification or a FHWA eligibility letter for each Category 1 device and a FHWA eligibility letter for each Category 2 and Category 3 device used on the contract. The self-certification or letter shall provide information for the set-up and use of the device as well as a detailed drawing of the device.”

Revise the first six paragraphs of Article 1106.02 of the Standard Specifications to read:

“**1106.02 Devices.** Work zone traffic control devices and combinations of devices shall meet crashworthiness standards for their respective categories. The categories are as follows.

Category 1 includes small, lightweight, channelizing and delineating devices that have been in common use for many years and are known to be crashworthy by crash testing of similar devices or years of demonstrable safe performance. These include cones, tubular markers, plastic drums, and delineators, with no attachments (e.g. lights). Category 1 devices manufactured after December 31, 2019 shall be MASH-16 compliant. Category 1 devices manufactured on or before December 31, 2019, and compliant with NCHRP 350 or MASH 2009, may be used on contracts let before December 31, 2024.

Category 2 includes devices that are not expected to produce significant vehicular velocity change but may otherwise be hazardous. These include vertical panels with lights, barricades, temporary sign supports, and Category 1 devices with attachments (e.g. drums with lights). Category 2 devices manufactured after December 31, 2019 shall be MASH-16 compliant. Category 2 devices manufactured on or before December 31, 2019, and compliant with NCHRP 350 or MASH 2009, may be used on contracts let before December 31, 2024.

Category 3 includes devices that are expected to cause significant velocity changes or other potentially harmful reactions to impacting vehicles. These include crash cushions (impact

attenuators), truck mounted attenuators, and other devices not meeting the definitions of Category 1 or 2. Category 3 devices manufactured after December 31, 2019 shall be MASH-16 compliant. Category 3 devices manufactured on or before December 31, 2019, and compliant with NCHRP 350 or MASH 2009, may be used on contracts let before December 31, 2029. Category 3 devices shall be crash tested for Test Level 3 or the test level specified.

Category 4 includes portable or trailer-mounted devices such as arrow boards, changeable message signs, temporary traffic signals, and area lighting supports. It is preferable for Category 4 devices manufactured after December 31, 2019 to be MASH-16 compliant; however, there are currently no crash tested devices in this category, so it remains exempt from the NCHRP 350 or MASH compliance requirement.

For each type of device, when no more than one MASH-16 compliant is available, an NCHRP 350 or MASH-2009 compliant device may be used, even if manufactured after December 31, 2019."

Revise Articles 1106.02(g), 1106.02(k), and 1106.02(l) to read:

"(g) Truck Mounted/Trailer Mounted Attenuators. The attenuator shall be approved for use at Test Level 3. Test Level 2 may be used for normal posted speeds less than or equal to 45 mph.

(k) Temporary Water Filled Barrier. The water filled barrier shall be a lightweight plastic shell designed to accept water ballast and be on the Department's qualified product list.

Shop drawings shall be furnished by the manufacturer and shall indicate the deflection of the barrier as determined by acceptance testing; the configuration of the barrier in that test; and the vehicle weight, velocity, and angle of impact of the deflection test. The Engineer shall be provided one copy of the shop drawings.

(l) Movable Traffic Barrier. The movable traffic barrier shall be on the Department's qualified product list.

Shop drawings shall be furnished by the manufacturer and shall indicate the deflection of the barrier as determined by acceptance testing; the configuration of the barrier in that test; and the vehicle weight, velocity, and angle of impact of the deflection test. The Engineer shall be provided one copy of the shop drawings. The barrier shall be capable of being moved on and off the roadway on a daily basis."

State of Illinois  
DEPARTMENT OF TRANSPORTATION  
Bureau of Local Roads & Streets  
SPECIAL PROVISION  
FOR  
LOCAL QUALITY ASSURANCE/ QUALITY MANAGEMENT QC/QA  
Effective: January 1, 2022

Replace the first five paragraphs of Article 1030.06 of the Standard Specifications with the following:

**“1030.06 Quality Management Program.** The Quality Management Program (QMP) will be Quality Control / Quality Assurance (QC/QA) according to the following.”

Delete Article 1030.06(d)(1) of the Standard Specifications.

Revise Article 1030.09(g)(3) of the Standard Specifications to read:

- “(3) If core testing is the density verification method, the Contractor shall provide personnel and equipment to collect density verification cores for the Engineer. Core locations will be determined by the Engineer following the document “Hot-Mix Asphalt QC/QA Procedure for Determining Random Density Locations” at density verification intervals defined in Article 1030.09(b). After the Engineer identifies a density verification location and prior to opening to traffic, the Contractor shall cut a 4 in. (100 mm) diameter core. With the approval of the Engineer, the cores may be cut at a later time.”

Revise Article 1030.09(h)(2) of the Standard Specifications to read:

- “(2) After final rolling and prior to paving subsequent lifts, the Engineer will identify the random density verification test locations. Cores or nuclear density gauge testing will be used for density verification. The method used for density verification will be as selected below.

Density Verification Method	
<input type="checkbox"/>	Cores
<input checked="" type="checkbox"/>	Nuclear Density Gauge (Correlated when paving $\geq$ 3,000 tons per mixture)

Density verification test locations will be determined according to the document “Hot-Mix Asphalt QC/QA Procedure for Determining Random Density Locations”. The density testing interval for paving wider than or equal to 3 ft (1 m) will be 0.5 miles (800 m) for lift thicknesses of 3 in. (75 mm) or less and 0.2 miles (320 m) for lift thicknesses greater than 3 in. (75 mm). The density testing interval for paving less than 3 ft (1 m) wide will be 1 mile (1,600 m). If a day's paving will be less than the prescribed density testing interval, the length of the day's paving will be the interval for that day. The density testing interval for mixtures used for patching will be 50 patches with a minimum of one test per mixture per project.

If core testing is the density verification method, the Engineer will witness the Contractor coring, and secure and take possession of all density samples at the

density verification locations. The Engineer will test the cores collected by the Contractor for density according to Illinois Modified AASHTO T 166 or AASHTO T 275.

If nuclear density gauge testing is the density verification method, the Engineer will conduct nuclear density gauge tests. The Engineer will follow the density testing procedure detailed in the document "Illinois Modified ASTM D 2950, Standard Test Method for Density of Bituminous Concrete In-Place by Nuclear Method".

A density verification test will be the result of a single core or the average of the nuclear density tests at one location. The results of each density test must be within acceptable limits. The Engineer will promptly notify the Contractor of observed deficiencies."

Revise the seventh paragraph and all subsequent paragraphs in Section D. of the document "Hot-Mix Asphalt QC/QA Initial Daily Plant and Random Samples" to read:

"Mixtures shall be sampled from the truck at the plant by the Contractor following the same procedure used to collect QC mixture samples (Section A). This process will be witnessed by the Engineer who will take custody of the verification sample. Each sample bag with a verification mixture sample will be secured by the Engineer using a locking ID tag. Sample boxes containing the verification mixture sample will be sealed/taped by the Engineer using a security ID label."
