**GENERAL TERMS AND CONDITIONS**

(Continued from Sheet No. 182)

**DISTRIBUTION FACILITIES (CONTINUED)**

**OTHER FACILITIES (CONTINUED).**

**Provisions for the Fixture-Included Lighting Delivery Class**

A retail customer for which the Company provides fixture-included lighting is provided with electric service through the use of poles and other facilities required by the Company for distribution purposes other than such lighting. Such poles and other facilities are used to mount the lighting units and provide electric service for such lighting units. The Company also furnishes, installs, owns, operates, replaces, and maintains the lighting fixture, associated mounting equipment, and associated operating equipment for dusk to dawn operation of the lighting unit.

Notwithstanding the provisions of the previous paragraph, for a situation in which electric service for a fixture-included lighting unit cannot be provided through the use of poles and other facilities required by the Company for distribution purposes other than such lighting, additional facilities needed to provide such electric service are installed and connected to nearby Company distribution facilities. Such additional facilities may include poles meeting Company specifications for such service. The Company furnishes, installs, operates, replaces, and maintains such nonstandard additional facilities, and charges the retail customer for such facilities in accordance with the applicable provisions in the Facilities Related Billing Provisions subsection of the Other Billing Provisions section of the Billing and Payment part of these General Terms and Conditions.

In addition, for a situation in which a transformer is required exclusively to serve a fixture-included lighting unit used for private outdoor lighting purposes, such transformer is provided in accordance with the provisions for providing nonstandard services and facilities.

If a retail customer using a fixture-included lighting unit for private outdoor lighting purposes requests installation of a lighting unit on a pole owned by such retail customer, such pole must meet Company specifications at the time of installation and must be maintained by the retail customer in accordance with Company specifications at all times that the lighting unit remains in place.

If a retail customer using a fixture-included lighting unit for private outdoor purposes requests the removal of such lighting unit and subsequently requests the installation of a like or replacement lighting unit at the same location within a period of one (1) year, such retail customer is charged for relocation or replacement of facilities in accordance with the provisions for providing nonstandard services and facilities.

(Continued on Sheet No. 184)

Filed with the Illinois Commerce Commission on  
December 16, 2008. Issued pursuant to the  
Illinois Commerce Commission Orders  
entered July 26, 2006, in Docket No. 05-0597  
and August 15, 2007, in Docket No. 07-0432.

Date Effective: January 15, 2009  
Issued by A. R. Pramaggiore, Exec. Vice President  
Post Office Box 805379  
Chicago, Illinois 60680-5379

**GENERAL TERMS AND CONDITIONS**

(Continued from Sheet No. 183)

**DISTRIBUTION FACILITIES (CONTINUED)**

**OTHER FACILITIES (CONTINUED).**

\*

**Provisions for the Fixture-Included Lighting Delivery Class (Continued)**

For a lighting retail customer for which the Company provides fixture-included lighting that such lighting retail customer uses in the provision of public street lighting, equipment for each lighting unit consists of a lamp, a luminaire, a bracket, and a photoelectric control device. Lighting units and brackets available for fixture-included public street lighting use are as follows:

High Pressure Sodium (HPS) 70 watts (5,800 Initial Lumens)  
HPS 100 watts (9,500 Initial Lumens)  
HPS 150 watts (16,000 Initial Lumens)  
HPS 250 watts (30,000 Initial Lumens)  
HPS 400 watts (50,000 Initial Lumens)  
HPS 1,000 watts (140,000 Initial Lumens)  
Light Emitting Diode (LED) 50 to 60 watts (5,200 Initial Lumens)  
Mounting Bracket - Eight (8) feet or less in length  
Mounting Bracket - Over eight (8) feet in length  
Post Top Luminaire  
Acorn Style Luminaire

For a retail customer for which the Company provides fixture-included lighting that such retail customer uses for private outdoor lighting, equipment for each lighting unit consists of a lamp, a luminaire, a short bracket that is approximately thirty (30) inches in length for a conventional style high pressure sodium lighting unit, or twenty (20) inches in length for a flood style high pressure sodium lighting unit, and a photoelectric control device. Lighting units available for fixture-included private outdoor lighting use are as follows:

Flood Style HPS 100 watts (9,500 Initial Lumens)  
Flood Style HPS 250 watts (30,000 Initial Lumens)  
Conventional Style HPS 100 watts (9,500 Initial Lumens)  
Conventional Style HPS 150 watts (16,000 Initial Lumens)  
LED 50 to 60 watts (5,200 Initial Lumens)

Notwithstanding the previous provisions of this Provisions for the Fixture-Included Lighting Delivery Class, LED lighting units are available as a standard service offering beginning with the January 2015 monthly billing period.

(Continued on Sheet No. 185)

**GENERAL TERMS AND CONDITIONS**

(Continued from Sheet No. 184)

**DISTRIBUTION FACILITIES (CONTINUED)**

**OTHER FACILITIES (CONTINUED).**

**Provisions for the Fixture-Included Lighting Delivery Class (Continued)**

The Company is not required to remove obstructions or trim vegetation that may interfere with proper distribution of light from lighting units provided for a retail customer for which the Company provides fixture-included lighting.

For a situation in which the Company performs excessive maintenance or replacement with respect to any specific lighting unit, the provision of fixture-included lighting to a retail customer with respect to such lighting unit is subject to cancellation.

Upon receipt of a written request from a lighting retail customer using electric service for a public street lighting system for which the Company provides fixture-included lighting, the Company (a) provides additional available lighting units connected to and operated as part of such system; (b) makes changes in the lumen rating, suspension, or reflector of lighting units; or (c) removes lighting units at locations designated by such retail customer. Notwithstanding the previous provisions of this paragraph, the Company is obligated to follow the provisions of item (b) and item (c) only for lighting units that have been in place for at least six (6) months.

A retail customer's request for changes in the type of equipment provided by the Company that requires a conversion to another lighting unit, change in bracket, or change in luminaire are provided in accordance with the provisions for providing nonstandard services and facilities.

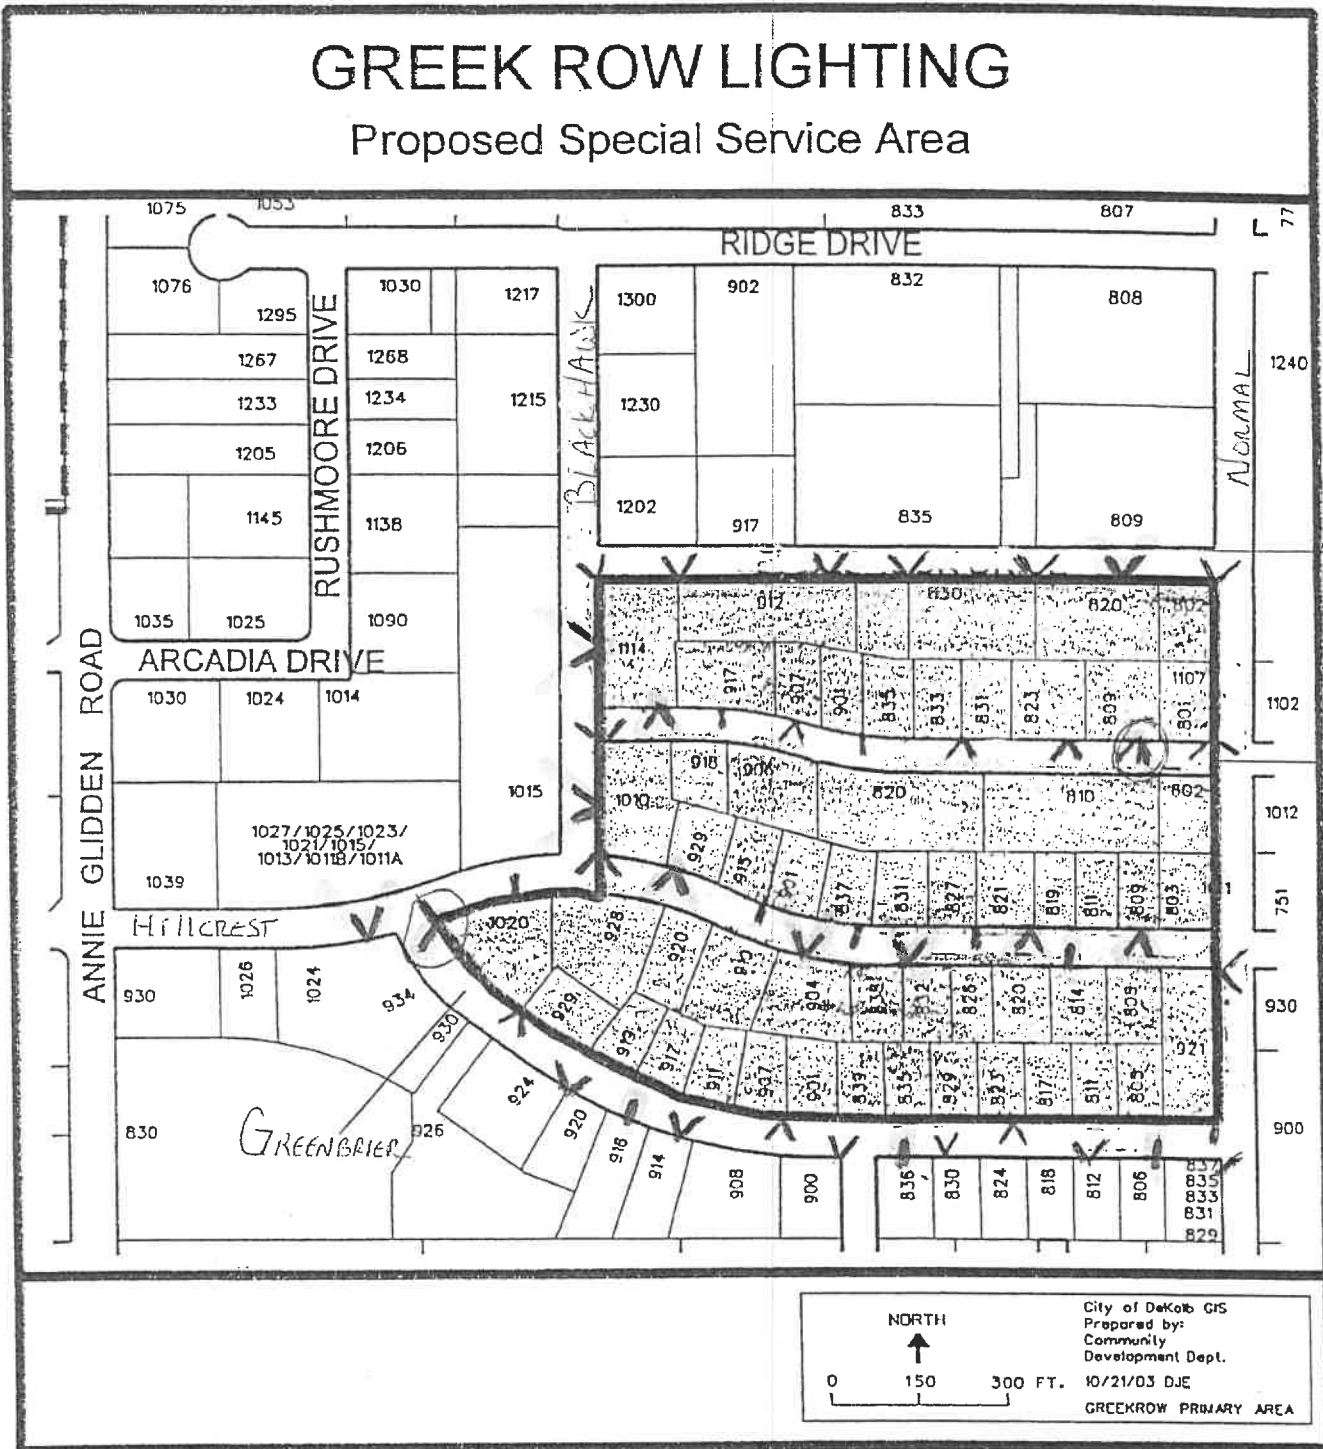

Notwithstanding the previous provisions of this Provisions for the Fixture-Included Lighting Delivery Class subsection, the Company is not required to install additional lighting units and equipment or substitute lighting units of higher rating if the retail customer is in arrears for services previously provided by the Company to such retail customer.
