PERFORMANCE MEASURES

Key Performance Measures under the AIP: AIP provides funding to airports for infrastructure improvements such as safety, security and capacity projects.

- Eliminate airport conditions that cause aircraft accidents and security breaches.
- Reduce the number of people exposed to high levels of noise.
- Maintain airfield pavement in fair or better condition.
- Updated measures as issued by the FAA.

For All Projects: To complete this phase of the project within five (5) years from the date this agreement is approved by the GRANTOR.
The GRANTEE will submit to the GRANTOR a complete and detailed final invoice with applicable supporting documentation of all incurred costs, less previous payments, no later than twelve (12) months from the date of completion of this phase of the improvement or from the date of the previous invoice, which ever occurs first. If a final invoice is not received within this time frame, the most recent invoice may be considered the final invoice and the obligation of the funds closed.

The GRANTEE shall provide the final report to the appropriate GRANTOR within twelve (12) months of the physical completion date of the project so that the report may be audited and approved for payment. If the deadline cannot be met, a written explanation must be provided to the district prior to the end of the twelve months documenting the reason and the new anticipated date of completion. If the extended deadline is not met, this process must be repeated until the project is closed. Failure to follow this process may result in the immediate close-out of the project and loss of further funding.

For Federally Funded Projects: The GRANTOR is to comply with FAA Order 5100.38D or most current publication of the Airport Improvement Handbook as well as all current Airport Sponsor Grant Assurances. In accordance with AIP Sponsor Guide – 1500, drawdowns of federal funds are to be done in a reasonable timeframe; prolonged inactivity (i.e., 12 months) may establish sufficient cause for the FAA to recover the unused funds by unilaterally closing the grant. As stated in the guidelines, inactivity of open grants may also jeopardize future federal projects.

For State-Let Projects: The GRANTEE is to remit payments to the GRANTOR in a timely manner as required under Payment Methods A, B, or C in Exhibit C. Failure to remit the payment(s), shall allow the GRANTOR to internally offset, reduce, or deduct the arrearage from any payment or reimbursement due or about to become due and payable from the GRANTOR to GRANTEE on this or any other contract. The STATE, at its sole option, upon notice to the GRANTEE, may place the debt into the Illinois Comptroller’s Offset System (15 ILCS 405/10.05) or take such other and further action as my be required to recover the debt.
EXHIBIT F

PERFORMANCE STANDARDS

The current versions of the AIP Handbook and AIP Sponsor Guide, as approved by FAA at the time this Agreement is executed, are incorporated by reference.

Performance standards are contained in the resulting GRANTOR or GRANTEE Contract(s) or Engineering Agreement, whichever is applicable for the project. These performance standards include labor, materials, and other specifications and special provisions applicable to the individual Project(s) subject to the granted funds described herein.
EXHIBIT G

Further, for each phase of Project work which is covered by separate contract, the Consulting Engineer shall render to the GRANTOR, through the Project Coordinator, both a semifinal and final inspection report. The final inspection report(s) shall certify to the GRANTOR and to the GRANTEE that the work involved has been fully completed in accordance with the plans, specifications and contract(s), including modifications or supplements by the GRANTOR the FAA through an approved change order, supplementary contract, or otherwise. The final inspection report(s) shall also certify that the work is acceptable to the Consulting Engineer.

Toward this end, the GRANTEE shall include a provision in each instrument recorded for every interest in land acquired or for which reimbursement is made under this
Agreement which reads as follows:

Mr. Tom Cleveland
Airport Manager
DeKalb Taylor Municipal Airport
3232 Pleasant Street
DeKalb, Illinois 60115

Mr. Cleveland,

For Fiscal Year 2015, the Illinois Department of Transportation's Proposed Airport Improvement Program includes projects at airports throughout the state to ensure continued safe and efficient operations at these facilities as well as maximizing opportunities for economic development in Illinois.

The following federally funded project(s) for your airport have been selected based on requests made to this office and are included in the Federal Fiscal Year (FFY) 2015 Proposed Airport Improvement Program. This program is based on federal funding levels established in federal legislation which provide for a minimum of $1 million in entitlement funds for primary airports as well as maximum of $150,000 entitlement funds for non-primary airports. The federal legislation calls for a maximum 90% federal match. As such, the state and local match will be 5% each for all projects which are eligible for state funding. All other federal projects will require a minimum 10% local match.

This program is dependent on receipt of FFY 2015 federal grant funds and legislative authorization of state funding appropriations and release of funds by the Governor’s office.

The Illinois Department of Transportation and the Airport Sponsor agree to participate in the above defined amounts in accordance with the percentages shown. In addition, the Airport Sponsor shall pay such additional project costs, which exceed the sum of the Department’s funds and the Federal funds. In the event the Illinois General Assembly fails to appropriate funds or sufficient funds are otherwise not made available for these Projects, the Airport Sponsor will be required to pay the State and local costs as itemized above, including any amounts which exceed the totals listed.

The projects contained in this letter are officially programmed for development. This letter herewith constitutes the official "Notice to Proceed" for these projects. It is now the airport sponsor’s responsibility to initiate the professional services phase of the project for your specific project type (planning development, equipment procurement, T-Hangar development, land acquisition or design plans and specifications development). This is accomplished by contacting the Division of Aeronautics, either directly or through your consultant, to schedule a project initiation meeting. Where construction projects are programmed, you should contact the Division of Aeronautics’ design engineer for your airport to initiate a pre-design meeting. Your Aeronautics Design Engineer is Hank Priester, P.E. and he may be reached at 217-557-9113 to initiate this project. Please initiate your project within one year of the date on this letter.

If you have any questions concerning this letter, please contact BJ Murray at 217-782-4118.

Sincerely,

Charles J. Ingersoll, P. E.

Mr. Cleveland,

For Fiscal Year 2016, the Illinois Department of Transportation’s Proposed Airport Improvement Program includes projects at airports throughout the state to ensure continued safe and efficient operations at these facilities as well as maximizing opportunities for economic development in Illinois.

The following federally funded project(s) for your airport have been selected based on requests made to this office and are included in the Federal Fiscal Year (FFY) 2016 Proposed Airport Improvement Program. The Division of Aeronautics maintains a letting schedule for construction projects that needs to be strictly followed to ensure that projects are advertised and brought to letting in an organized manner within the fiscal year in which they are programmed. The letting schedule allows for 30 weeks to develop a project from the date of the pre-design meeting to the letting.

To ensure that professional services effort is eligible for state and federal funding participation, you are required to enter into a professional services agreement with the consultant of record selected for the programmed project(s) prior to any professional services costs being incurred. This should take place as soon as possible, but definitely prior to the project initiation/pre-design meeting. The Division of Aeronautics will assist in guiding you through that process and the initial development and review of fees.

The projects contained in this letter are officially programmed for development. This letter herewith constitutes the official "Notice to Proceed" for these projects.
